PENSIONSYNC

PENSION PROVIDER

Simplify pensions with PensionSync

PensionSync collects, validates and formats pension data files so that pension scheme providers simply receive clean data, first time, every time. By lifting restrictions regarding compatibility with specific payroll providers, PensionSync expands your business capabilities and generates business growth.

Compatible with any payroll software and major UK pension providers, PensionSync is a true one stop shop for all your pension management needs.

Clean payroll data

With PensionSync's quick fix wizard, common data errors are either safely auto-corrected or resolved by the user during the upload process so you don't have to worry about resubmissions, frustrated customers or support demand.

Reduction in late payers

PensionSync's automation of payroll-to-pension processing means that members' pension contributions are invested faster, with fewer late payments to chase.

Other benefits

No payroll integration? No worries!

Whether you have an API, SFTP or whether you require traditional CSV uploads, PensionSync works around your needs.

Your own branded pension solution

Enjoy all the time saving benefits of PensionSync under your own brand with our white label solution.

Online pension help centre

With a dedicated help centre for the major pension providers, a helping hand is just a click away.
