

# THE GLOBAL GOALS

In 2015, world leaders agreed to **17 Global Goals** (officially known as the Sustainable Development Goals or SDGs). It's now five years on, and we have more work than ever to do. These goals have the power to **create a better world by 2030**, by ending poverty, fighting inequality and addressing the urgency of climate change.

## DO YOU KNOW THEM ALL?

There are **17 integrated objectives**, divided into five areas: people, planet, prosperity, peace and partnership. Together, they work as measures that **make the world a better** place for all of us.

# SUSTAINABLE DEVELOPMENT GOALS

## 1 NO POVERTY

Economic growth must be inclusive to provide sustainable jobs and promote equality.

The food and agriculture sector offers key solutions for development, and is central for hunger and poverty eradication.

## 2 ZERO HUNGER

## 3 GOOD HEALTH AND WELL-BEING

Ensuring healthy lives and promoting the well-being for all at all ages is essential to sustainable development.

Obtaining a quality education is the foundation to improving people's lives and sustainable development.

## 4 QUALITY EDUCATION

## 5 GENDER EQUALITY

Gender equality is not only a fundamental human right, but a necessary foundation for a peaceful, prosperous and sustainable world.

Clean, accessible water for all is an essential part of the world we want to live in.

## 6 CLEAN WATER AND SANITATION

## 7 AFFORDABLE AND CLEAN ENERGY

Energy is central to nearly every major challenge and opportunity.

Sustainable economic growth will require societies to create the conditions that allow people to have quality jobs.

## 8 DECENT WORK AND ECONOMIC GROWTH

## 9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

Investments in infrastructure are crucial to achieving sustainable development.

To reduce inequalities, policies should be universal in principle, paying attention to the needs of disadvantaged and marginalized populations.

# 10 REDUCED INEQUALITIES

# 11 SUSTAINABLE CITIES AND COMMUNITIES

There needs to be a future in which cities provide opportunities for all, with access to basic services, energy, housing, transportation and more.

Use of the natural environment and resources in a way that continues to have destructive impacts on the planet.

# 12 RESPONSIBLE CONSUMPTION AND PRODUCTION

# 13 CLIMATE ACTION

Climate change is a global challenge that affects everyone, everywhere.

Careful management of this essential global resource is a key feature of a sustainable future.

# 14 LIFE BELOW WATER

15

LIFE ON LAND

Sustainably manage forests, combat desertification, halt and reverse land degradation, halt biodiversity loss.

Access to justice for all, and building effective, accountable institutions at all levels.

16

PEACE, JUSTICE AND STRONG INSTITUTIONS

17

PARTNERSHIPS FOR THE GOALS

Revitalize the global partnership for sustainable development.

GET INVOLVED

Everyone can contribute to making sure the Global Goals are met. Here you can read more about the Goals, find organizations to support and information to share:

[www.un.org/sustainabledevelopment/sustainable-development-goals/](http://www.un.org/sustainabledevelopment/sustainable-development-goals/)

Anyone can change the world. Welcome to join the movement.
