

Sailing and Racing Days

Learn how to sail and race in your first regatta.
Great for teams or client days out

My name is Chris Rees and I am the Event Director of Sailing Week. Our sailing events are proving very popular as a great day out on the water and a perfect way to entertain clients or to bring your team together.

We have great locations along the South Coast setting sail from Ocean Village in Southampton, whilst in Portsmouth, we are based by the impressive Spinnaker Tower

We begin the day with a tasty breakfast, where your team have a chance to meet our Skippers and crew before heading down to the marina to step aboard our brand-new fleet of Sunsail 41.0 yachts.

Our Skippers give a team safety briefing, and then go through some training before you head out into Southampton Water and the Solent to get the sails up and some practise in before racing begins!

With our 12 matching yachts, it's all down to the teams' new-found skills out on the water to determine who will win. All the racing is under the guidance of a fully qualified Skipper and First mate who will be there to teach you the ropes and ensure your team and clients have a great time. We then head back for a post racing Awards ceremony and drinks, with a chance to network with the other teams.

We are now taking deposits for our popular events, if you have any questions, would like to chat further or you would be interested in reserving your yacht, then please do get in touch. I love my sailing and can't wait for your team to experience it too.

Happy Sailing,

Chris Rees
