

Tokens.com Receives DTC Eligibility for its Common Shares

TORONTO, ONTARIO, October 13, 2021 - [Tokens.com Corp.](#) ([NEO Exchange Canada: COIN](#))([Frankfurt Stock Exchange: 76M](#)) ([OTCQB US: SMURF](#)) (“Tokens.com” or the “Company”), a publicly traded company that invests in revenue-generating crypto and blockchain assets linked to Decentralized Finance (“DeFi”), Non-Fungible Tokens (“NFT”), and metaverse real estate, is pleased to announce that it has received Depository Trust Company (“DTC”) eligibility on its common shares in relation to the Company’s listing on the OTCQB. DTC eligibility will enable an accelerated settlement process enabling Tokens.com’s shares to be economically transferred between brokerage accounts electronically within the United States.

DTC is a subsidiary of the Depository Trust & Clearing Corporation, a U.S. company that manages the electronic clearing and settlement of publicly-traded companies. Securities that are eligible to be electronically cleared and settled through DTC are considered to be “DTC eligible”.

With Tokens.com’s shares now trading electronically in the United States, existing US investors will benefit from greater liquidity and execution speeds, while new US investors are far less restricted from purchasing Tokens.com’s shares.

“We are pleased to have obtained DTC eligibility,” commented CEO, Andrew Kiguel. “We expect this to simplify the process for US investors and brokerage firms, alike, which will help bolster our North American audience, broaden our shareholder base, and enhance the liquidity of Tokens.com’s common shares in the United States.”
