

REVAGUT

CALM ACID REFLUX THE NATURAL WAY

A probiotic supplement formulated for heartburn and acid reflux

1 in 5 people experience heartburn or acid regurgitation on a weekly basis

Research indicates that reflux symptoms are often triggered or worsened by gut dysbiosis and/or small intestinal bacterial overgrowth (SIBO). When your gut contains more bad microorganisms than good, they begin to ferment carbohydrates in the small intestine causing unpleasant symptoms such as gas, poor gastric motility, and weakness of the lower esophageal sphincter. Probiotics help restore the balance of 'good' bacteria in your gut and maintain normal digestive function.

REVAGUT provides relaxation from acid reflux and soothes the gut. It is a combination of *Bacillus coagulans* Unique IS-2 and well-proven antacid calcium carbonate for promising relaxation from gastric irritation. The presence of Fructo Oligosaccharides (FOS), a prebiotic, enhances further the proliferation of probiotics.

INDICATIONS & CAUSES

Acid reflux is a common condition that features a burning pain, known as heartburn in the lower chest area. It happens when stomach acid flows back up into the food pipe, due to

- Eating large meals or lying down right after a meal
- Being overweight or obese
- Snacking close to bedtime
- Carbonated beverages
- Smoking and alcohol

Acid reflux symptoms are often triggered or worsened by gut dysbiosis due to

- Bacterial overgrowth
- Poor gastric motility
- Weakness of the lower esophageal sphincter

USAGES AND BENEFITS

- Supports the reduction of reflux symptoms
- Helps neutralize stomach acids
- Relieves indigestion
- Reduces gas & bloating
- Promotes the growth of good gut bacteria

COMPOSITION

Each capsule contains:

Bacillus coagulans Unique IS-2 – 2 bn cfu

Fructose Oligosaccharide-100 mg

Calcium carbonate – 140 mg

DOSAGE

Adults: Take 1-2 capsules daily
