

ORATERI

ORAL HEALTH FOR YOUR
OVERALL HEALTH

Probiotic Lactobacillus reuteri UBLRu - 87 chewable tablets for oral health

Oral diseases affect close to 3.5 billion people worldwide

Probiotics help maintain a balanced oral microbiome by the secretion of various anti - microbial substances such as organic acids, hydrogen peroxide, and bacteriocins. They compete with pathogenic bacteria for adhesion sites on the mucosa and help eliminate the oral pathogens. Lactobacillus reuteri UBLRu - 87 is proven to be effective in preventing periodontitis by reducing the number of pathogenic bacteria in saliva.

INDICATIONS & CAUSES

Irregular brushing of teeth and improper cleaning create conditions in which acid-producing bacteria can flourish. This acid dissolves tooth enamel and causes dental cavities. There are many causes that contribute to bad oral health , including

- Smoking
- Genetics
- Acid reflux, or heartburn
- An unhealthy diet high in sugar
- Hormonal changes in women
- Diabetes

BENEFITS

- Helps reduce oral microbial infections
- Helps reduce gum inflammation
- Helps prevent dental caries
- Repopulates oral microbiome

CLINICAL STUDIES ON CHRONIC PERIODONTITIS

Significantly greater PPD reductions, clinical attachment gain, PI and GI index were noticed in the Scaling and Root Planning (SRP) + Probiotic group at all assessment time points compared to baseline

COMPOSITION

Each chewable tablet contains:
Lactobacillus reuteri UBLRu-87- 0.5 billion cfu

DOSAGE

1-2 chewable tablets daily
