

BACIPRO

GUT FRIENDLY REMEDY FOR DIARRHEA

Clinically backed probiotic supplement for the safe and effective management of antibiotic-associated diarrhea in adults and children

Diarrheal diseases account for 1 in 9 child mortality worldwide

BACIPRO contains *Bacillus clausii* UBBC-07, a friendly probiotic bacterium that plays a notable role in protecting the intestine against infections.

- It is a poly antibiotic resistant strain and can withstand stomach acid.
- *Bacillus clausii* UBBC-07 effectively colonizes in the gut.

CAUSES

Diarrhea is an alarm of poor gut health. It is often caused by

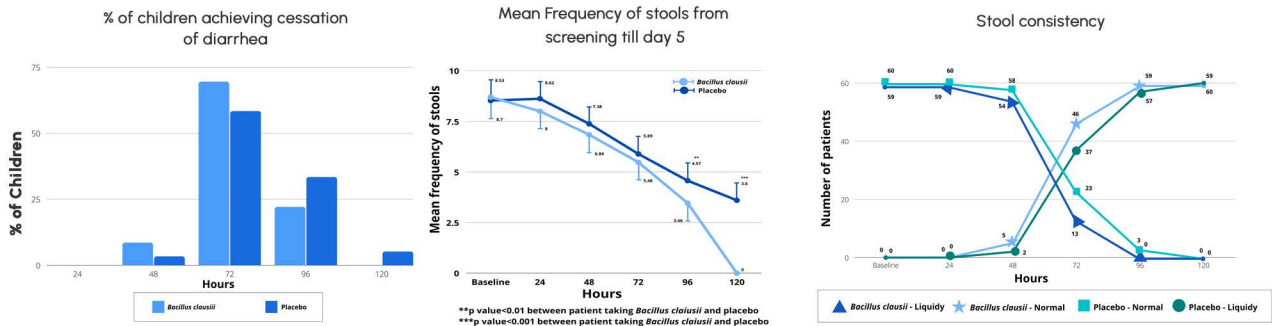

- Acute intestinal infections
- Food intolerance
- Antibiotic treatment
- Travelling
- Psychological and physiological stress

USAGES AND BENEFITS

- Reduces diarrhea, abdominal pain and flatulence
- Improves stool consistency
- Restores normal bowel function
- Replenishes natural gut flora
- Easy to use and travel friendly

CLINICAL STUDIES

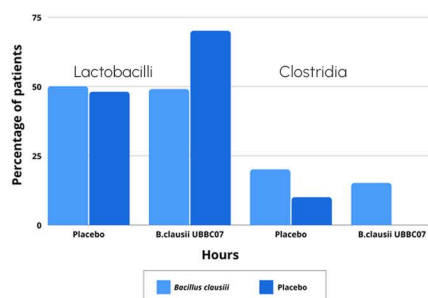

ACUTE DIARRHEA IN CHILDREN

Sudha et al., 2019

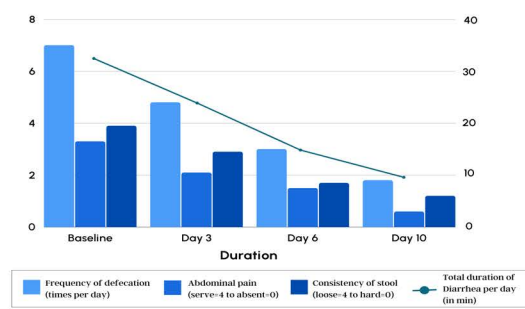

Bacillus clausii UBBC-07 significantly reduced defecation frequency, duration of diarrhea and improved stool consistency in children.

IBD IN ADULTS - MODULATION OF GUT BACTERIA

Bacillus clausii UBBC-07 was able to modulate the gut microbiota by enhancing the presence of beneficial lactobacilli and reducing pathogen genera *Clostridia*.

ACUTE DIARRHEA IN ADULTS

Sudha et al., 2013

BACIPRO significantly reduced defecation frequency, abnormal pain, duration of diarrhea and improved stool consistency in adults

COMPOSITION

Each oral suspension mini bottle contains:
Bacillus clausii UBBC-07 - 2 billion cfu

DOSAGE

Children 1-2 mini bottles a day
Adults: 2-3 mini bottles a day

Available in different dosage forms- Capsules and Sachets

BACIPRO COMBINATIONS

NAME	COMPOSITIONS	BENEFITS
BACIPRO -DS	Each 5ml mini bottle/capsule/sachet contains: Bacillus clausii UBBC-07 - 4 billion cfu	<ul style="list-style-type: none"> Reduces diarrhea and abdominal pain Improves stool consistency Replenishes natural gut flora Restores normal bowel function Easy to use and travel friendly
BACIPRO with FOS	Each 5 ml mini bottle contains: Bacillus clausii UBBC-07 - 2 billion cfu Fructo Oligosaccharide - 1 gm	<ul style="list-style-type: none"> Provides gentle relief from constipation and its associated symptoms Replenishes natural gut flora Restores normal bowel function
BACIPRO with Lactitol	Each oral suspension mini bottle contains: Bacillus clausii UBBC-07 - 2 billion cfu Lactitol - 10 gm	<ul style="list-style-type: none"> Provides gentle relief from constipation and its associated symptoms Replenishes natural gut flora Restores normal bowel function Easy to use and travel friendly
BACIPRO with Zinc	Each oral suspension mini bottle contains: Bacillus clausii UBBC-07 - 2 billion cfu Zinc as Zinc lactate – 5 mg (Sweet orange & strawberry flavor)	<ul style="list-style-type: none"> Helps reduce diarrhea and supports normal immune system function Reduces diarrhea and abdominal pain Improves stool consistency Replenishes natural gut flora Restores normal bowel function Easy to use and travel friendly
BACIPRO with Vitamin B6	Each 5 ml mini bottle contains Bacillus clausii UBBC-07 - 2 billion cfu Vitamin B6 – 0.85 mg	<ul style="list-style-type: none"> Helps with normal metabolism, production of normal red blood cells and keeping cells healthy Reduces diarrhea and abdominal pain Improves stool consistency Replenishes natural gut flora Restores normal bowel function Easy to use and travel friendly
BACIPRO with Vitamin D3	Each 5 ml mini bottle contains Bacillus clausii UBBC-07 - 2 billion cfu Nano vitamin D3 - 400 IU	<ul style="list-style-type: none"> Promotes bone health Reduces diarrhea and abdominal pain Improves stool consistency Replenishes natural gut flora Restores normal bowel function Easy to use and travel friendly
