

# Brand Guidelines

Berbix

v 1.0

## Wordmark

Our wordmark is carefully drawn and is unique to us.  
It should never be modified or manually typed out.

Berbix

# Clearspace

The clearspace around our wordmark should always be maintained when used in isolation of our symbol.

# Symbol

Our symbol can be use as shorthand on its own or locked up with our wordmark.

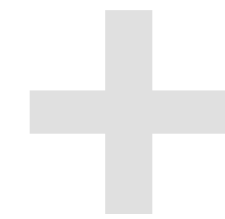

# Symbol Meaning

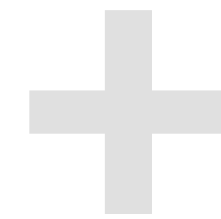

Online verification can be like jumping through hoops but we make it quick and easy with seamless integration.

B if for Berbix

Hoops

The dot of the i represents our users.

## Logo Lockup

While the wordmark and symbol can live separately, when they are locked up, it is important to maintain the appropriate clearspace and alignment.

## Logo Color

Our logo is primarily used in white with green dots on our brand colors Indigo or Cobalt. When we use our logo on white, the entire logo is used in Cobalt.

When we are not able to use color, we represent our logo locked up and in black or white.

## Indigo

#00EC85

Note: Green should only be used on Indigo or Cobalt.

## Color Palette

Our primary colors are Indigo, Cobalt and White. We use a pop of green to represent an active state of verification.

Grey 1-3 can be used to create visual heirarchy.
