

Microsoft 365 Management for Hybrid Environments

Get it all under control with a single management platform and complete any admin task—whether in the cloud or on-prem.

Automate User Management Across the Cloud and On-Prem

What if it didn't matter which tenant a user needed to be created or set up in? With CoreView, you can! Manage all users and groups in a single place, so you can stop worrying about which admin panel to log into and focus on more strategic tasks.

 Microsoft 365 AZURE	vs.	 CoreView HYBRID CONNECTOR
Slow sync takes 30 minutes to 24 hours		Fast sync with partial import every 30 seconds
One way sync from on-prem to cloud		Bi-directional sync lets CoreView update fast
Separate logins slows down admins		Unified admin panels for cloud and on-prem
Impossible to report on hybrid users		Simple reporting in just a few clicks
Impossible to script across hybrid		Easy to run onboarding, offboarding workflows

Simplify your day-to-day management by reducing complex tasks from many steps to a simple click:

- User provisioning or onboarding
- De-provisioning or offboarding
- Password resets
- Unlocking accounts
- Group membership management
- Many others

It's like an 'easy button' for Microsoft 365 management, reducing help desk escalations and simplifying administration.

Eliminate the Need to Log Into Multiple Admin Centers to Manage Users

Are you still logging into several admin panels to complete a simple task? How about waiting for a slow sync process to run to finish your task?

It's never simple in a hybrid environment.

With CoreView management actions and workflows, you can kick off complex tasks with a few simple clicks - or automate them entirely, freeing up IT time to focus on more strategic projects.

Dramatically Reduce the Burden of Hybrid Microsoft 365 Management

Our customers report saving between 30 to 40% of admin time with CoreView. Easily reduce the admin burden of Microsoft 365 by:

- Reducing complex tasks to a couple of clicks, or automating them entirely, with workflows;
- Allowing IT teams to delegate administration securely with Virtual Tenants so local business units can manage their admin instead of submitting requests;
- Monitoring your environment ensuring full visibility;
- Automating license management to gain the most value from Microsoft 365;
- Bonus: Across your entire environment so you're always in control, whether in the cloud or on-prem.

CoreView cuts the chaos and gets Microsoft 365 under control.
