

Empower your Microsoft 365 management with CoreView Essentials

Start streamlining your Microsoft 365 management today with 50 out-of-the-box pre-defined best practices

Many organizations struggle with managing their Microsoft 365 environments effectively. Challenges include ensuring internal and external compliance, establishing security baselines, managing complex license landscapes, and optimizing whole ecosystem performance while retaining top employee productivity.

CoreView Essentials directly addresses these pain points by offering a streamlined, entry-level package designed for ease of use and efficiency.

It simplifies Microsoft 365 management, offering essential tools for checking the health of your environment, notifying about noncompliance and automating remediation executions.

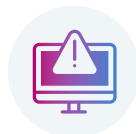

This package helps organizations enhance their M365 governance, reduce manual efforts, and maintain system health, all while keeping costs manageable.

CoreView Essentials is the ideal solution for businesses looking to bolster their M365 management without the need for extensive IT expertise or resources.

How it works

Scans your M365 environment

Identifies policy violations

Remediates via automated workflows

Discover how CoreView Essentials can transform your M365 management. Contact us for a demo today!

CoreView is a Microsoft AI Cloud Partner, available in the Azure Marketplace, and works exclusively with Microsoft resellers, solution integrators, and managed service providers, ensuring organizations get the most out of Microsoft 365.

We revolutionize the way Microsoft 365 stacks are managed, providing a unified approach to configuration management, delegated administration, and automated governance.

Benefits

- Automatically ensure compliance with M365-specific regulations
- Streamline policy and management processes within minutes
- Reduce time and costs associated with manual governance, making it simple for all stakeholders

Highlights

- Set of pre-defined Playbooks: automated remediation actions for SharePoint, Exchange, Teams, Identity, Security, and Licensing
- Governance Center: regular assessments for system health and performance
- Bronze or Silver Success Package best tailored for essential support needs
