

# Our WELL Certified™ Platinum Achievement

In September 2020, the International WELL Building Institute (IWBI) awarded the distinction of WELL Certified™ Platinum to Enriching Spaces for their office/showroom project in Cincinnati, Ohio. Enriching Spaces is first in Ohio and 9<sup>th</sup> in the nation to receive WELL Certification at the Platinum level.

WELL v2 is structured on 10 evidence-based concepts that influence the health and well-being of the occupants, associates, and visitors in the built environment.

These 10 human-centered concepts link design, policy, and strategies to positive health and well-being outcomes, ultimately improving an organization's ability to attract and retain employees. Enriching Spaces uniquely brings this knowledge and expertise to the projects we work on.

# Enriching Spaces Health Safety Rating

In 2021, Enriching Spaces earned the WELL Health-Safety Rating through the International WELL Building Institute (IWBI).

The WELL Health-Safety Rating is an evidence-based, third-party verified rating for all new and existing building and space types.

**The WELL Health-Safety seal provides a visible trust mark** verifying that specific features for operational policies, maintenance protocols, stakeholder engagement, and emergency plans have been implemented. These features address a post-COVID return to the work environment, for now and for the broader health and safety-related issues of the future.
