

CARRIER DOLLY

**A DAMAGE FREE SOLUTION TO
LOADING FLAT DECKS**

Made from 6061 – T6 Aircraft grade aluminium, the Collins Mini Dolly telescopes to fit all tyre sizes, it self- loads and elevates the vehicle in one quick smooth operation. By raising the vehicle, load angle clearance issues are eliminated. The winch rope attaches to the systems tow bar, cross over wheel straps secure the dolly in place. No winch rope, strop or chain ever comes into contact with the vehicle.

APPLICATIONS

The system doubles as a motorcycle dolly

- * All-Wheel Drive
- * Hybrid vehicles
- * No tow eyes
- * Electric vehicles
- * Vehicles locked in “park”
- * High-end vehicles
- * Low spoilers
- * Motorcycles & Trikes
- * No wheels or rims
- * Badly damaged vehicles
- * Lowered suspension
- * Difficult access

CLEARANCE

TOW CRADLE

Add the Collins Tow Cradle to your arsenal and loading vehicles without wheels or tyres becomes a breeze.
