

The Beginning

Milstead HMR was founded when we noticed there was a gap in the market. With such little support, we saw everyday ordinary people become victims to slow response time, higher invoices, and less than optimal service.

We saw the need for innovative emergency response, as well as hazardous field services that business owners, municipalities, insurance agencies, federal, state, and regulatory agencies could rely on.

At Milstead HMR, we pride ourselves on our commitment to provide the highest level of professionalism and service to all clients whatever the situation calls for.

Setting Standards

Milstead HMR sets the industry standard in emergency response, hazmat field services, spill management, industrial cleaning, and bio-hazard cleaning services for industrial, commercial and individuals in the Greater Houston area.

In today's competitive business environment, Milstead HMR ensures you receive the best value that you expect from a service partner.

Milstead HMR is recognized as a reliable provider for municipalities, the solid waste industry, as well as concrete and construction companies throughout Texas.

Why Milstead HMR?

The Need for Service

Milstead HMR was founded with service in mind. We saw a need in the market for quicker response times and quality service.
