

## ELECTROCARDIOGRAPH AIDE PROGRAM BREAKDOWN BY COURSE

| COURSE TITLE                                                                                                 | CLOCK HOUR |
|--------------------------------------------------------------------------------------------------------------|------------|
| HealthCare Occupational Development (Lec 7 hrs / Lab 0 hrs)                                                  | 7          |
| HIV/Aids Education (Lec 3 hrs / Lab 1 hrs)                                                                   | 4          |
| CPR - Cardiopulmonary Resuscitation (Lec 2 hrs / Lab 2 hrs)                                                  | 4          |
| Structure and Function of the Cardiovascular System and Related Medical terminology (Lec 10 hrs / Lab 0 hrs) | 10         |
| Principles of Electrocardiograph Theory & Lab I/II (Lec 60 hrs / Lab 40 hrs)                                 | 100        |
| Introduction to ECG Interpretation (Lec 30 hrs / Lab 0 hrs)                                                  | 30         |
| ECG Technician Certification Review (Lec 10 hrs / Lab 0 hrs)                                                 | 10         |
| <b>TOTAL</b>                                                                                                 | <b>165</b> |
