    - Introduction to Strategy
    - Technology Revolutions
    - Introduction to Entrepreneurship
    - Sustainability Foundations
    - Group Challenge

---

Each Impact Certificate is made up of three challenges. Through each one you will tackle a real-world scenario. First you will Investigate, then you will Engage, and finally Act.

---

**What is challenge-based learning?**

- Engage
  - Via critical questioning, you shift from memorizing theory to putting ideas and knowledge into action through learning by doing.

- Investigate
  - You prepare and engage in a journey that sets the basis for solution-based outputs.

- Act
  - Evidence-based strategies are created, tested, and then implemented to ensure progress and results.
