

Patient identified by Care Team Staff (Provider, Nurse, MA)
Criteria: Patient dx with HTN and BP > 140/90

Phase One

BP Monitor Distribution, Calibration and Teaching.

For the teaching visit LVN, RN or Health Educator use CPT Code 99473

Pt is uninsured and needs BP monitor or DME not covered through patient's insurance

Pt is insured or already owns BP monitor

MA schedules in-person appointment with LVN or RN for BP monitor pickup, calibration and teaching.

MA faxes a BP monitor request to Western Drug Supply and schedules BP check 3 weeks after request for teaching

Phase Two

BP checks for BP review and Med Titration

In-person BP check with MA as a Nursing visit to collect SMBP readings and collect BP log

For collection of SMBP readings use CPT code 99474

At any point if BP >180/100 mmHg then in-person visit or video visit is to be scheduled with the provider.

If during a BP check BP is >140/90 schedule visit with provider for BP review.

Phase Three

In person f/u as needed

In person or video visit for BP review with PCP (as needed).
Follow up with patient for SMBP readings at every visit
