Training Programmes

Course Title	▶ PRINCIPLES OF RCM IMPLEMENTATION
Course Length	▶ 3 Days
Delegates	▶ Negotiable
Course Material	▶ Provided by Xpedite
Location	▶ Negotiable
Course Summary	▶ The aim of the course is to introduce the principles of RCM to individuals or organisations who are exploring the potential of applying the process within their business environment.

The course will introduce the process in a practical manner describing the initial steps required to start an RCM project.

This course starts with the 'Introduction to RCM' Course but includes a case study on day 3 to develop implementation skills. The course has been developed through past experience of conducting analysis for and with clients. The course can be tailored to suit the client's industry sector.

Some of the areas covered are:

- Introduction to the Principles of RCM
- Maintenance Principles
- Application of the process using a Case Study
- The Practical Application of RCM

Our Services

Reliability Centred Maintenance | Integrated Logistic Support | Asset & Maintenance Management | Project Management | Safety Cases and Risk Assessing | IDEFO Functional Analysis | Availability, Reliability and Maintainability Based Maintenance | RCM Mentoring and Training

Training Programmes

Course Title ▶ **RCM FACILITATION TRAINING & IMPLEMENTATION**

Course Length ▶ 5 Days Training & 5 Day Implementation/Mentoring

Delegates ▶ Negotiable

Course Material ▶ Provided by Xpedit

Location ▶ Negotiable

Course Summary ▶ The course builds on the knowledge gained from the 'Principles of RCM Implementation' course. This practical workshop-based course teaches the skills required to apply RCM.

The 10 day course includes a 5 day classroom based structured Facilitators training. The study topic can be designated by Xpedit or chosen by the customer and be applied to one of your systems or assets.

The following 5 days consist of applying those skills within a mentored study group. This will be applied to one of your systems or assets. The study group will be mentored by an Aladon trained RCM Practitioner

Some of the areas covered are:

- Facilitation Skill
- Principles of Failure Finding
- Applying the process
- Study mentoring
