Sustainability Finance Disclosure Regulations (SFDR)

The EU Taxonomy is a classification system which establishes a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption, and anti-bribery matters.

FitzGerald Flynn Insurances Ltd is regulated by the Central Bank of Ireland. Reg. No. 288303
