

HOW TO

INTCK

USING SAS

What is it?

RETURNS THE NUMBER OF
BOUNDARIES
BETWEEN TWO
DATES OR TIMES

How do i write it?

INTCK

interval
code

sas date
start

sas date
end

Show me examples

intck
('year', '22JAN2019',
'30DEC2019') = 0

intck
('week', '9JUNE2019', '24
JUNE2019') = 3

date =
'22apr2019'd

intck
('year', '30DEC2019',
'22JAN2020') = 1

intck
('month2.2', '22JAN2019',
'30DEC2019') = 5

What are my options?

C CONTINUOUS

Specifies that continuous time is measured. The interval is shifted based on the starting date.

D DISCRETE

Specifies that discrete time is measured. The discrete method counts interval boundaries.
