ADDITIONAL
COMMENTS

The best 360 video walk-through camera for the price

A predecessor to the X2 camera

*Insta360 One R resolution varies from 4-5.3K

**This is the lowest price for the basic model. Price can go up to \$800

The One X2 offers similar features for half the price. If audio plays a big role than the Theta Z1 is the right camera to purchase

A predecessor of the Theta Z1. Much cheaper but not easily available
