

# Better Business Decisions

Automate key aspects of your business process by applying configurable rules to premium data sources, powered by FullCircl.

Trusted by 600+ companies

## Our A.I. your business rules

With countless pre-built and custom rules and the richest sources of business data you can create a platform that delivers maximum impact where it matters most. At your front-line. With our Rules Engine you can automate everything from KYC and AML checks, to advanced customer monitoring and even automated insurance underwriting.

### Automation you control

A platform uniquely tailored to your business and your goals

Configured by your subject experts, leveraged by your front-line teams

1

Combine millions of variables faster than any human can to spot risks and opportunities

2

Save your front-line teams precious time to focus on the tasks that deliver the most value

3

Highly configurable rules engine

4

Combine FullCircl data with your existing specialist data

## Are you ready for complete, customised control?

Contact us today to discuss how we can help you to automate your policies with enriched customer intelligence and a powerful, customisable rules engine.
