OPTI-MagnaSTEM™

A proprietary blend of all natural synergistic herbs, vitamins, minerals and plant extracts that have been formulated to assist the natural release of stem cells AND help them remain healthy and active while in the bloodstream.

QUICK NUTRIENT FACTS

• Lithium is the game-changer. Over a thousand studies have confirmed its ability to promote the growth of new stem cells, thus leading to the ability to inhibit neurological decay and dysfunction.

• Studies have shown overwhelmingly positive results when using lithium to treat bipolar disorder, Alzheimer’s, stroke, and more. It has also been proven to reduce the risk of dementia.

• Promotes a better ability to repair, restore, and regenerate.

MORE INFO

You have stem cells inside your bone marrow waiting to be activated and sent to replace aging, as well as damaged and unhealthy tissues. When the body suffers tissue damage, lack of oxygen, or infection, large cells are called out of the bone marrow to find and repair damaged tissues.

OPTI - MagnaSTEM™ is a unique formulation of natural herbs, vitamins, minerals, and plant extracts. Many of the natural ingredients in OPTI-MagnaSTEM™ are synergistic and superior antioxidants. The more healthy stem cells you have circulating in your body, the healthier you are in general.*
