Opti-Thyroid™ provides tyrosine, iodine, and selenium, micronutrients that are essential for the production of T4 and its conversion to T3. B vitamins from a whole food cultured media blend are present to support energy production, while vitamin C, vitamin E, and beta carotene provide support for antioxidant activity and tissue protection. Chelated minerals, choline, betaine hydrochloride (HCl), and glutamic acid provide further support for metabolic functions. Glandular support comes from an Argentinian bovine source and are “pre-digested” to ensure safety and purity.*

MORE INFO
Your thyroid is a butterfly-shaped gland that sits just above the collar bone.

Parathyroid gland
Larynx (voice box)
Thyroid Gland
Trachea (windpipe)

It activates over 100 enzymes that affect nearly every tissue. It has an impact on energy production and use, metabolism, immune system, gastrointestinal health, emotions, body temperature, hair, skin, and more.
