Essential Ubiquinol

Ubiquinol plays an important role in maintaining cardiovascular health. Essential Ubiquinol is a highly bioavailable form paired with an active form of CoQ10.

PRIMARY USES
- Support heart health
- Antioxidant support
- Support healthy LDL Cholesterol levels

QUICK FACTS
- A recent 10-year study found Ubiquinol supports weak hearts and helped reduce patient’s symptoms.
- Published in the prestigious Journal of the American College of Cardiology (2014), the study found supplementation with CoQ10 significantly reduced mortality in patients with a failing heart by 43%.

Essential Ubiquinol
WHY THIS SUPPLEMENT?
Your doctor has placed you in good hands. Optimal Health Systems cares about patients, too, which is why we create supplements that contain nutrients ONLY from whole foods. Because of this, you won’t have the same concerns as with synthetics. All products are lab-tested and have a wealth of evidence to back our claims.

WHAT SETS US APART?
There are plenty of whole food supplements out there, but only Optimal Health Systems takes it a step further with its pre-digestion process we call Opti-Blend™. It utilizes a combination of 10 kosher-certified, non-GMO enzymes, and patented organic minerals to pre-digest every nutrient before encapsulating. Opti-Blend™ ensures delivery at the cellular level and up to a 300% increase in absorption.
