WHY THIS SUPPLEMENT?

Your doctor has placed you in good hands. Optimal Health Systems cares about patients, too, which is why we create supplements that contain nutrients ONLY from whole foods. Because of this, you won't have the same concerns as with synthetics. They are lab-tested and have a wealth of evidence to back our claims, along with patents.

WHAT SETS US APART?

There are plenty of whole food supplements out there, but only Optimal Health Systems takes it a step further with its patented pre-digestion process we call Opti-Blend™. It utilizes a combination of 10 kosher-certified, non-GMO enzymes, and patented organic minerals to predigest every nutrient before encapsulating. Opti-Blend™ ensures delivery at the cellular level and up to a 300% increase in absorption.
