OPTIMAL COMPLETE PERFORMANCE™

This is a balanced protein powder complete with vitamins and minerals. By utilizing the most nutrient-dense forms of proteins, carbs and fats available, we ensure you will have all the nutrients needed to restore energy and help create lean, calorie-burning muscle.

QUICK FACTS
- It’s proper nutrition with great taste.
- Packed with whole food nutrients that provide 100% of your daily needs in almost every single category.

DELIVERING ON TWO MAJOR FACTORS
1. Every single gram of protein can be converted into energy.
   Every protein has different amounts of amino acids at different levels, meaning our body will utilize protein at the weakest link. We have blended specific proportions of proteins so everything gets used.
2. The protein is broken down and absorbed.
   We use only what your body can use while avoiding removing energy, guaranteeing no fat is stored.

OPTIMAL COMPLETE PERFORMANCE™

Our goal was to create a high-protein formula utilizing the nutrient-dense quality ingredients to which our customers are accustomed, but with a taste comparable to the high-sugar “junk” protein drinks on the market. After repeated taste trials we finally accomplished the ultimate goal: Real Nutrition with Great Taste.

WHY THIS SUPPLEMENT?
Your doctor has placed you in good hands. Optimal Health Systems cares about patients, too, which is why we create supplements that contain nutrients ONLY from whole foods. Because of this, you won’t have the same concerns as with synthetics. They are lab-tested and have a wealth of evidence to back our claims, along with patents.

WHAT SETS US APART?
There are plenty of whole food supplements out there, but only Optimal Health Systems takes it a step further with its patented predigestion process we call Opti-Blend™. It utilizes a combination of 10 kosher-certified, non-GMO enzymes, and patented organic minerals to predigest every nutrient before encapsulating. Opti-Blend™ ensures delivery at the cellular level and up to a 300% increase in absorption.

Ingredients backed by patents: 4,830,716 and 4,599,152.
