

Optimal Liver • Kidney™

OPTIMAL LIVER • KIDNEY™

Support your body's detoxification system with nutrients proven to ensure normal clearance of toxins, as well as protect liver cells.

QUICK FACTS

- Your liver and kidneys place a crucial role in detoxification.
- Your liver is responsible for over 600 functions.
- All our ingredients are safe and effective.

MORE INFO

Toxins surround us every day in many forms, from the millions of pounds of toxins dumped into the water and air, to things like poor diet, high stress, and synthetic medications.

When the liver and kidneys are not nutritionally supported and kept clean, your body stores toxins in your tissues.

Signs of toxin buildup include: fatigue, headaches, irritability, insomnia, depression, poor digestion, bad breath, allergies, and skin problems. If allowed to go on for too long, it can lead to chronic illnesses like cancer, arthritis, and Alzheimer's disease.

OPTIMAL - LIVER/KIDNEY™

WHY THIS SUPPLEMENT?

Your doctor has placed you in good hands. Optimal Health Systems cares about patients, too, which is why we create supplements that contain nutrients ONLY from whole foods. Because of this, you won't have the same concerns as with synthetics. They are lab-tested and have a wealth of evidence to back our claims, along with patents.

WHAT SETS US APART?

There are plenty of whole food supplements out there, but only Optimal Health Systems takes it a step further with its patented pre-digestion process we call **Opti-Blend™**. It utilizes a combination of 10 kosher-certified, non-GMO enzymes, and patented organic minerals to pre-digest every nutrient before encapsulating. **Opti-Blend™** ensures delivery at the cellular level and up to a 300% increase in absorption.
