

# Optimal Defense™

## OPTIMAL - DEFENSE™

Our immune system is constantly being bombarded by infectious diseases every day. Give your system the boost it needs with the most powerful and effective immune-supporting ingredients.

### QUICK FACTS

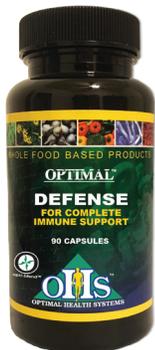

- Organic colostrum's anti-microbial properties helps strengthen the immune system against viruses and bacteria.
- Echinacea Purpurea helps protect against oxidants.
- DDS-1 Lactobacillus Acidophilus is an isolated and specifically cultured strain of friendly flora that inhibits the growth of 23 toxin-producing micro-organisms, and is the **most powerful probiotic in existence**.
- Contains antimicrobial enzymes proven to help strengthen the immune system and fight viruses and bacteria.

### EXTRA INFO

According to a report presented to the U.S. Senate, infectious diseases are the leading cause of death among Americans. Each year, over 13 million people die from them, and they could have been prevented. Being overly stressed and eating poorly weakens the immune system.

*"I love **Optimal Defense!** I usually try all my home remedies before I try something else, but Defense **WORKS!** The first time that I tried it, I rebounded from a stuffy cold by the next day!"*

## OPTIMAL - DEFENSE™

### WHY THIS SUPPLEMENT?

Your doctor has placed you in good hands. Optimal Health Systems cares about patients, too, which is why we create supplements that contain nutrients **ONLY** from whole foods. Because of this, you won't have the same concerns as with synthetics. They are lab-tested and have a wealth of evidence to back our claims, along with patents.

### WHAT SETS US APART?

There are plenty of whole food supplements out there, but only Optimal Health Systems takes it a step further with its patented predigestion process we call **Opti-Blend™**. It utilizes a combination of 10 kosher-certified, non-GMO enzymes, and patented organic minerals to predigest every nutrient before encapsulating. **Opti-Blend™** ensures delivery at the cellular level and up to a 300% increase in absorption.
