COLLECTION

About the Collection

ART by Tivoli Audio takes the timeless mid-century modern style of the Classic collection but adds a new technological twist. The Wi-Fi speaker and radio-based product line offers simple and flexible solutions to best fit your surroundings and enhance your world through music.

Technology

Created with future compatibility in mind, the ART by Tivoli Audio products are created with a forward compatible Wi-Fi module to ensure these products have been designed to work harmoniously with everevolving smart home technology and streaming services. The sound quality and performance from these compact speakers can scale from an intimate setting to a room-filling sound system wirelessly playing over your home Wi-Fi network.

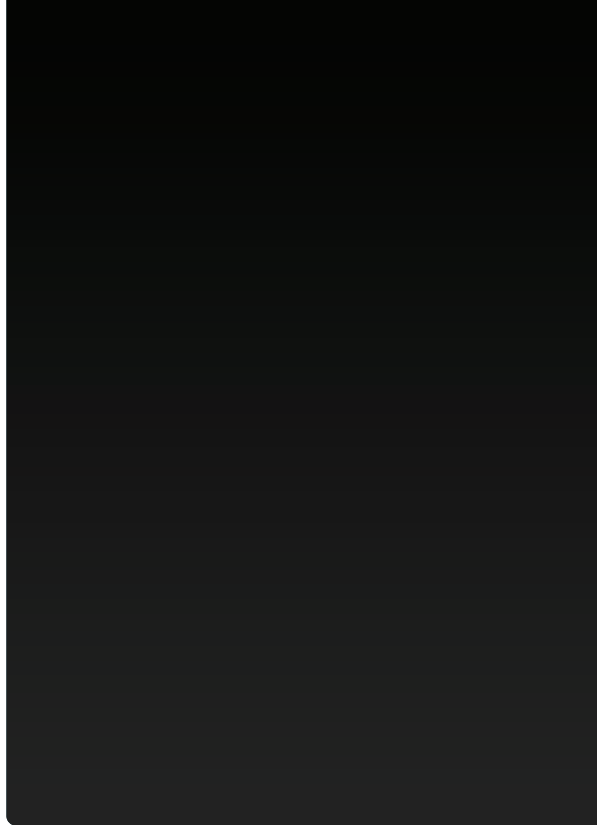

With Airplay 2, Chromecast, Spotify Connect, and Bluetooth built-in, connecting to Wi-Fi and streaming audio content from your favorite apps has never been easier.

Supports Streaming and Video Services such as...

... and many more

Design

Tivoli Audio craftsmanship was not forgotten in the creation of the ART collection. The choice of three classic wood finishes, walnut, white, and black, and the detailed use of metals and upholstery grade fabric makes matching any home décor simple. The use of these materials and distinct shapes make these products unique.

Art Collection 2024

The background of the advertisement features a minimalist interior scene. On the left, a portion of a modern chair with a chrome frame and black leather upholstery is visible. In the center, a black rectangular box serves as a backdrop for the text. To the right, a stack of books is placed on a wooden surface, with a brown Tivoli Audio speaker resting on top. Another white Tivoli Audio speaker is positioned in the foreground, also on a stack of books. The overall aesthetic is clean and sophisticated.
