Appendix 8.1.2 Charge to the Curriculum Committee

Whole Health School of Medicine
Charge to the Curriculum Committee

2021

The WHSOM Curriculum Committee, as a standing committee of the faculty, monitors the broad scope of the curriculum and implements and oversees all planned curricular changes. In addition, it serves as a forum to review and approve course proposals, to study special issues and problems, and to report to the faculty on curricular issues. In fulfilling the above, the Curriculum Committee will:

Establish general educational policy for the school

Set educational goals and objectives

Assess courses, clerkships, student evaluation procedures, and faculty performance

Initiate and review proposals for new courses and clerkships

Consider student and faculty grievances about curricular issues

Determine the appropriate sequencing and scheduling of courses and clerkships

Evaluate the effectiveness of the curriculum and initiate changes as needed to optimize the curriculum and curriculum outcomes

View the four years of the curriculum as a whole to achieve vertical and horizontal integration
