

Option	Services Provided
No Service	Call 911. Response times of ambulances in the area can be from 15 – 45 minutes. Helicopter services will not be dispatched until a recognized fire or EMS agency is present
One Person	Ability to call for ground or air ambulance directly through the dispatch system, while providing limited medical intervention
Full Crew	Tiered response with all terrain and rescue vehicles for fire suppression vehicle extrication and full spectrum of advanced life support measures. Coordination of transport to hospital by a ground or air ambulance as necessary
Additional Crew Member	Required for 5 mile events for expedited response due to larger area of the track. Also suggested as an option for high volume track activities to minimize track time interruption
Additional Full Crews	All services as stated above but with the flexibility of staging crews on or off track. It also improves the chance of less interruption of track time
	<i>Note: Crews will be staged at the infield care center(s) for medical needs of participants during active track hours.</i>
