

GLOBAL HEALTHCARE  
ACCREDITATION® PROGRAM

## Accreditation Services

### Accreditation Categories

Hospitals  
&  
Ambulatory Care

### WHERE TO START?

### Our Purpose

The Global Healthcare Accreditation® (GHA) Program evaluates compliance towards competencies that ensure a healthcare organization is not only monitoring its overall performance in the services provided to medical travel, medical tourism or international patients but that the entire medical travel cycle is streamlined to ensure an overall positive experience for consumers.

### Patients Deserve More. Be More with GHA.

GHA provides healthcare organizations a unique opportunity to not only acquire and competence but also choose from a portfolio of business solutions for any stage of development or objective. In essence, GHA is not only an accomplishment in operational excellence but a clear indicator an organization is also prioritizing their business strategy.

### Our Value & Fees

The Global Healthcare Accreditation® (GHA) Program accredits all sizes of organizations that provide services for medical travel, medical tourism or international patients. Accreditation Service fees are determined based on the type of accreditation category, size of the organization or system, business solution interests and landscape of a client's market.

Once achieved, Accreditation is issued for a period of 36 months for all accreditation categories.

### BETTER PROCESS. BETTER PERFORMANCE.
