

## Wayfinder Goes Beyond SEL

A comprehensive K-12 curriculum for school, life, and postsecondary success

Wayfinder was founded at Stanford University's d.school to give students the tools to live healthy lives of meaning and purpose. At Wayfinder, we believe that educators are guides—helping students develop strong relationships with themselves and their communities and supporting young people to thrive and make positive contributions in the world around them.

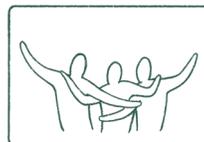

## Deepen Student Learning, Strengthen Your School's Community

Wayfinder enhances everyday learning through fun, reflective, and energy-boosting activities and lessons. Wayfinder is more than SEL. Students who use our program develop greater self-awareness, purpose, and belonging—strengthening critical skills proven to increase engagement and academic growth.

## Wayfinder Students Are:

**More academically engaged and motivated**

**More likely to have high self-esteem and confidence**

**More likely to be hopeful about their future**

## Wayfinder Core Skills

Wayfinder's research-backed six Core Skills go beyond typical SEL competencies to incorporate meaning-making, life readiness, and critical thinking skills in order to connect classroom learning to the real world.

### 1. Self-Awareness

Students understand themselves on many levels, from how they function to what nourishes and sustains them.

### 2. Adaptability

Students willingly try again when they make a mistake and comfortably navigate uncertainty with flexibility and openness.

### 3. Empathy

Students attune to the feelings and needs of others and act to serve a common good.

### 4. Collaboration

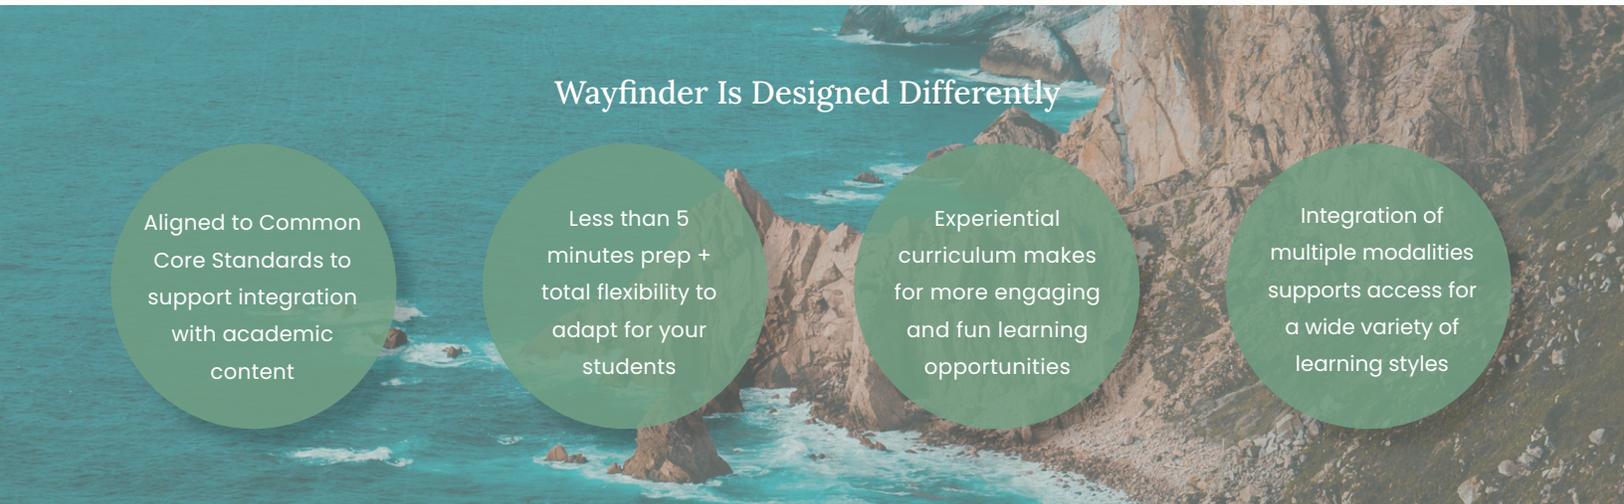

Students actively build relationships, partner with others, and facilitate belonging efforts across communities.

### 5. Agency

Students understand the value of their voice and work to support and advance their communities.

### 6. Purpose

Students deeply connect with their values to guide their decisions and interactions with the world.

## Wayfinder Is Designed Differently

Aligned to Common Core Standards to support integration with academic content

Less than 5 minutes prep + total flexibility to adapt for your students

Experiential curriculum makes for more engaging and fun learning opportunities

Integration of multiple modalities supports access for a wide variety of learning styles

## Key Outcomes at a Glance
