

**May 2022**

## **Targeted Training and Apprenticeship Fund (TTAF) FAQs for employers**

### **Will TTAF funding continue after December 2022?**

At this stage, we have received no further information to suggest that it will continue.

### **How do we know what we will be charged by the provider or Competenz if programmes run over December 2022?**

Either the provider or Competenz will manage this pricing with the customer. Talk with your account manager for charges relating to other Competenz programmes.

### **Will there be a funding programme to replace TTAF?**

We do not have any information at this stage regarding alternatives.

### **What will happen if I sign up to TTAF funded programmes this year?**

Fees recommence from January 2023, and this may include pro-rata of fees charged in 2022 if part of the service relates to 2023.

### **How do I claim for fees?**

As long as the services were provided in 2022 they are claimable.

### **Where will we find updated information?**

The Competenz website will provide regular updates and will remind employers of changes and dates to work towards. Training advisors, provider team and account managers will also be kept up-to-date.
