

21 November 2022

## **Targeted Training and Apprenticeship Fund (TTAF) FAQs for contract assessors**

### **Can employers still claim for TTAF fees after December 2022?**

As long as the services were provided in 2022, they are claimable.

### **Will TTAF funding continue after December 2022?**

No, TTAF is confirmed to end as of 31 December 2023.

### **How do we know what we will be charged by the provider or Competenz if programmes run over December 2022?**

Either the provider or Competenz will manage this pricing with the customer. Talk to your account manager for charges relating to other Competenz programmes.

### **Will there be a funding programme to replace TTAF?**

Not entirely, however the [Fees Free](#) scheme is being reinstated, and will apply to learners who meet the Tertiary Education Commission (TEC) eligibility criteria.

### **What will happen if I sign up to TTAF funded programmes this year?**

Fees recommence from January 2023, and this may include pro-rata of fees for enrolments commencing in 2022 if part of the service relates to 2023.

### **Where will we find updated information?**

The Competenz website will provide regular updates and will remind providers of changes and dates to work towards. Training advisors, provider team and account managers will also be kept up-to-date.
