Your Heritage Train Journey Through the Beautiful Cotswolds

2024 Orange and Lime Timetables (Broadway Station Closed)

To get the most out of your visit, why not stop off at stations along the line? Your on-board volunteer staff will be pleased to discuss this with you.

GWSR provides many different journey options and a variety of train types: steam, diesel-hauled and Diesel Multiple Unit (DMU). If you visit on different days you may well find different timetables and different combinations of train types running. The colours of the timetable indicate the different types of trains operating on normal operating days. For the first part of 2024 trains cannot operate between Toddington and Broadway because of the repair work being carried out to Stanway Viaduct. Go to our website www.gwsr.com to see which timetable will be used on the day of your visit (or use the QR Code).
