We are a digital financial services platform that instantly delivers the tools, access and education you need to save, invest, spend and send money to friends through our website (www.getcopper.com) (the “Website”) and mobile app (the “App”). When you use our services (as defined below), you will share personal information with us that could be used to identify you or that is associated with information that identifies you. This Privacy Policy describes the information we collect, how we use it, and whom we share it with. This Privacy Policy applies to Personal Information that we gather or collect via the Website or our App (collectively, the “Platform”). It does not apply to any Personal Information collected by third party websites not operated by Copper.

Our services, products, features, functions, technologies, and content offered through the Platform or by contacting our customer service are collectively referred to as the “Services.” “Personal Information” as the term is used in this Privacy Policy describes information that identifies, relates to, describes, references, is reasonably capable of being associated with, or could reasonably be linked, directly or indirectly, with a particular individual, household, or device. We do not consider Personal Information to include information that has been aggregated and/or otherwise de-identified such that it does not identify a specific individual, household or device.

Our Terms of Service (available online at https://www.getcopper.com/termsofservice), contain more detail about our Services that are available to consumers and should be reviewed in that regard. Any capitalized terms appearing in this Privacy Policy and not defined herein shall have the meanings ascribed to them in the Terms of Service. 1. The Personal Information We Collect

There are three basic categories of Personal Information we collect:

• Personal Information you provide to us;
• Automatically-collected data; and
• Information we get from third parties.

1.1 Personal Information You Provide To Us

When you use, access or interact with our Platform, we collect Personal Information that you share with us. For example, when you set up an account with us, we need to collect a few important details about you, such as your full name, email address, street address, phone number, date of birth, and your Social Security number. This Personal Information is used to verify your identity and set up the account. We may also collect other information such as a copy of your government-issued identification and your Social Security or Individual Taxpayer Identification Number for verification purposes. Additionally, when you use our Services, we will collect information about your transactions and activity, including financial and payment information.
When you contact customer support or communicate with us in any other way, we will collect whatever information you volunteer, in addition to your name and email address.

When an individual requests that an account be created, we ask for the applicant’s date of birth in order to determine whether the applicant is a minor, or is 18 years old or older and eligible to set up their own account. If the requestor is younger than 18, we require that the child’s parent or legal guardian complete the account creation process and disclose the minor’s Personal Information to us.

When you sign up for an investment account with our affiliated investment adviser, Next Financial Advisors, LLC (“NFA”), NFA will collect answers to regulatory questions as well as information about your investment objectives and your risk profile in order to make investment recommendations. You also consent to NFA or their service providers sharing your Personal Information with DriveWealth, NFA’s executing and clearing broker-dealer, in order to verify your identity for DriveWealth’s records and otherwise as necessary to comply with applicable legal requirements. You also consent to DriveWealth’s delivery of your Personal Information to NFA including, without limitation, information about your brokerage account opened at DriveWealth such as your Invest Account number, securities positions, market values, transaction histories and balances.

You are free to decline optional cookies if permitted by your computer, browser, mobile phone, or other device, although doing so may affect your use of our Services. We use both session cookies, which expire and no longer have any effect when you log out of your account or close your browser, and persistent cookies, which remain on your device until you erase them or they expire. 4. Cookies & Analytics Technology

In operating the Services, we may use a technology called “cookies.” A cookie is a piece of information that the computer that hosts our Services gives to your browser when you access the Services. Our cookies help provide additional functionality to the Services, including helping us analyze Services usage more accurately. For instance, our Website may set a cookie on your browser that allows you to access the Services without needing to remember and then enter a password more than once during a visit to the Website. On most web browsers, you will find a “help” section on the toolbar. Please refer to that section for information on how to receive notification when you are receiving a new cookie and how to
turn cookies off. We recommend that you leave cookies turned on because they allow you to take advantage of some of the Services’ features.

Some of our business partners (including advertisers) may also use cookies on the Website. For example, on occasion an advertiser may run a banner campaign on our Website. This Privacy Policy covers the use of cookies by this Website only and does not cover the use of cookies by any business partners or advertisers on our Website.

We also engage our advertising partners, including third party advertising companies and social media companies, to display ads around the web. These companies may use cookies and similar technologies to collect information about your interaction over time across our Services, our communications and other online services, and use that information to serve online ads that they think will interest you. This is called interest-based advertising. We may also share information about our users with these companies to facilitate interest-based advertising to those or similar users on other online platforms. You can learn more about your choices for limiting interest-based advertising in the “Online tracking Preferences” section below.

5. **Clear Gifs (Web Beacons)**

We may employ a software technology called clear gifs (a.k.a. Web Beacons) that help us better manage content on our Website by informing us what content is effective. Clear gifs are tiny graphics with a unique identifier, similar in function to cookies, and are used to track the online movements of Web users. In contrast to cookies, which are stored on a user’s computer hard drive, clear gifs are embedded invisibly on Web pages and are about the size of the period at the end of this sentence. We may tie the information gathered by clear gifs to our customers’ Personal Information. We may use clear gifs in our HTML-based emails to let us know which emails have been opened by recipients. This allows us to gauge the effectiveness of certain communications and the effectiveness of our marketing campaigns.

6. **How Long We Keep Your Information**

We encourage you to read the privacy policies of each and every website and domain that you interact with. We are not responsible for the privacy practices or content of such other websites or domains and you visit them at your own risk.

8. **Social Media**
Our Services may contain links and interactive features with various social media platforms. If you already use these platforms, their cookies may be set on your device when using our Services.
