WHITE PAPER

VERSION 1.0 • RELEASED 2/20/22

SHIBROBI

WELCOME!

SHIBROBI was created for the human population as a means of protection and security.

When you have finally had enough of others taking advantage of you, something has to be done!

From this, the Shiborg was born. We rise from the bottom to take over the WORLD! We are here to make our mark as a fair and honest ERC-20 token.

On February 5, 2022, we successfully launched with serious anti-bot contract measures. We wanted to ensure a 100% fair launch.

This is so crucial for a new token in today's market for organic growth and healthy wallet distribution.

MISSION

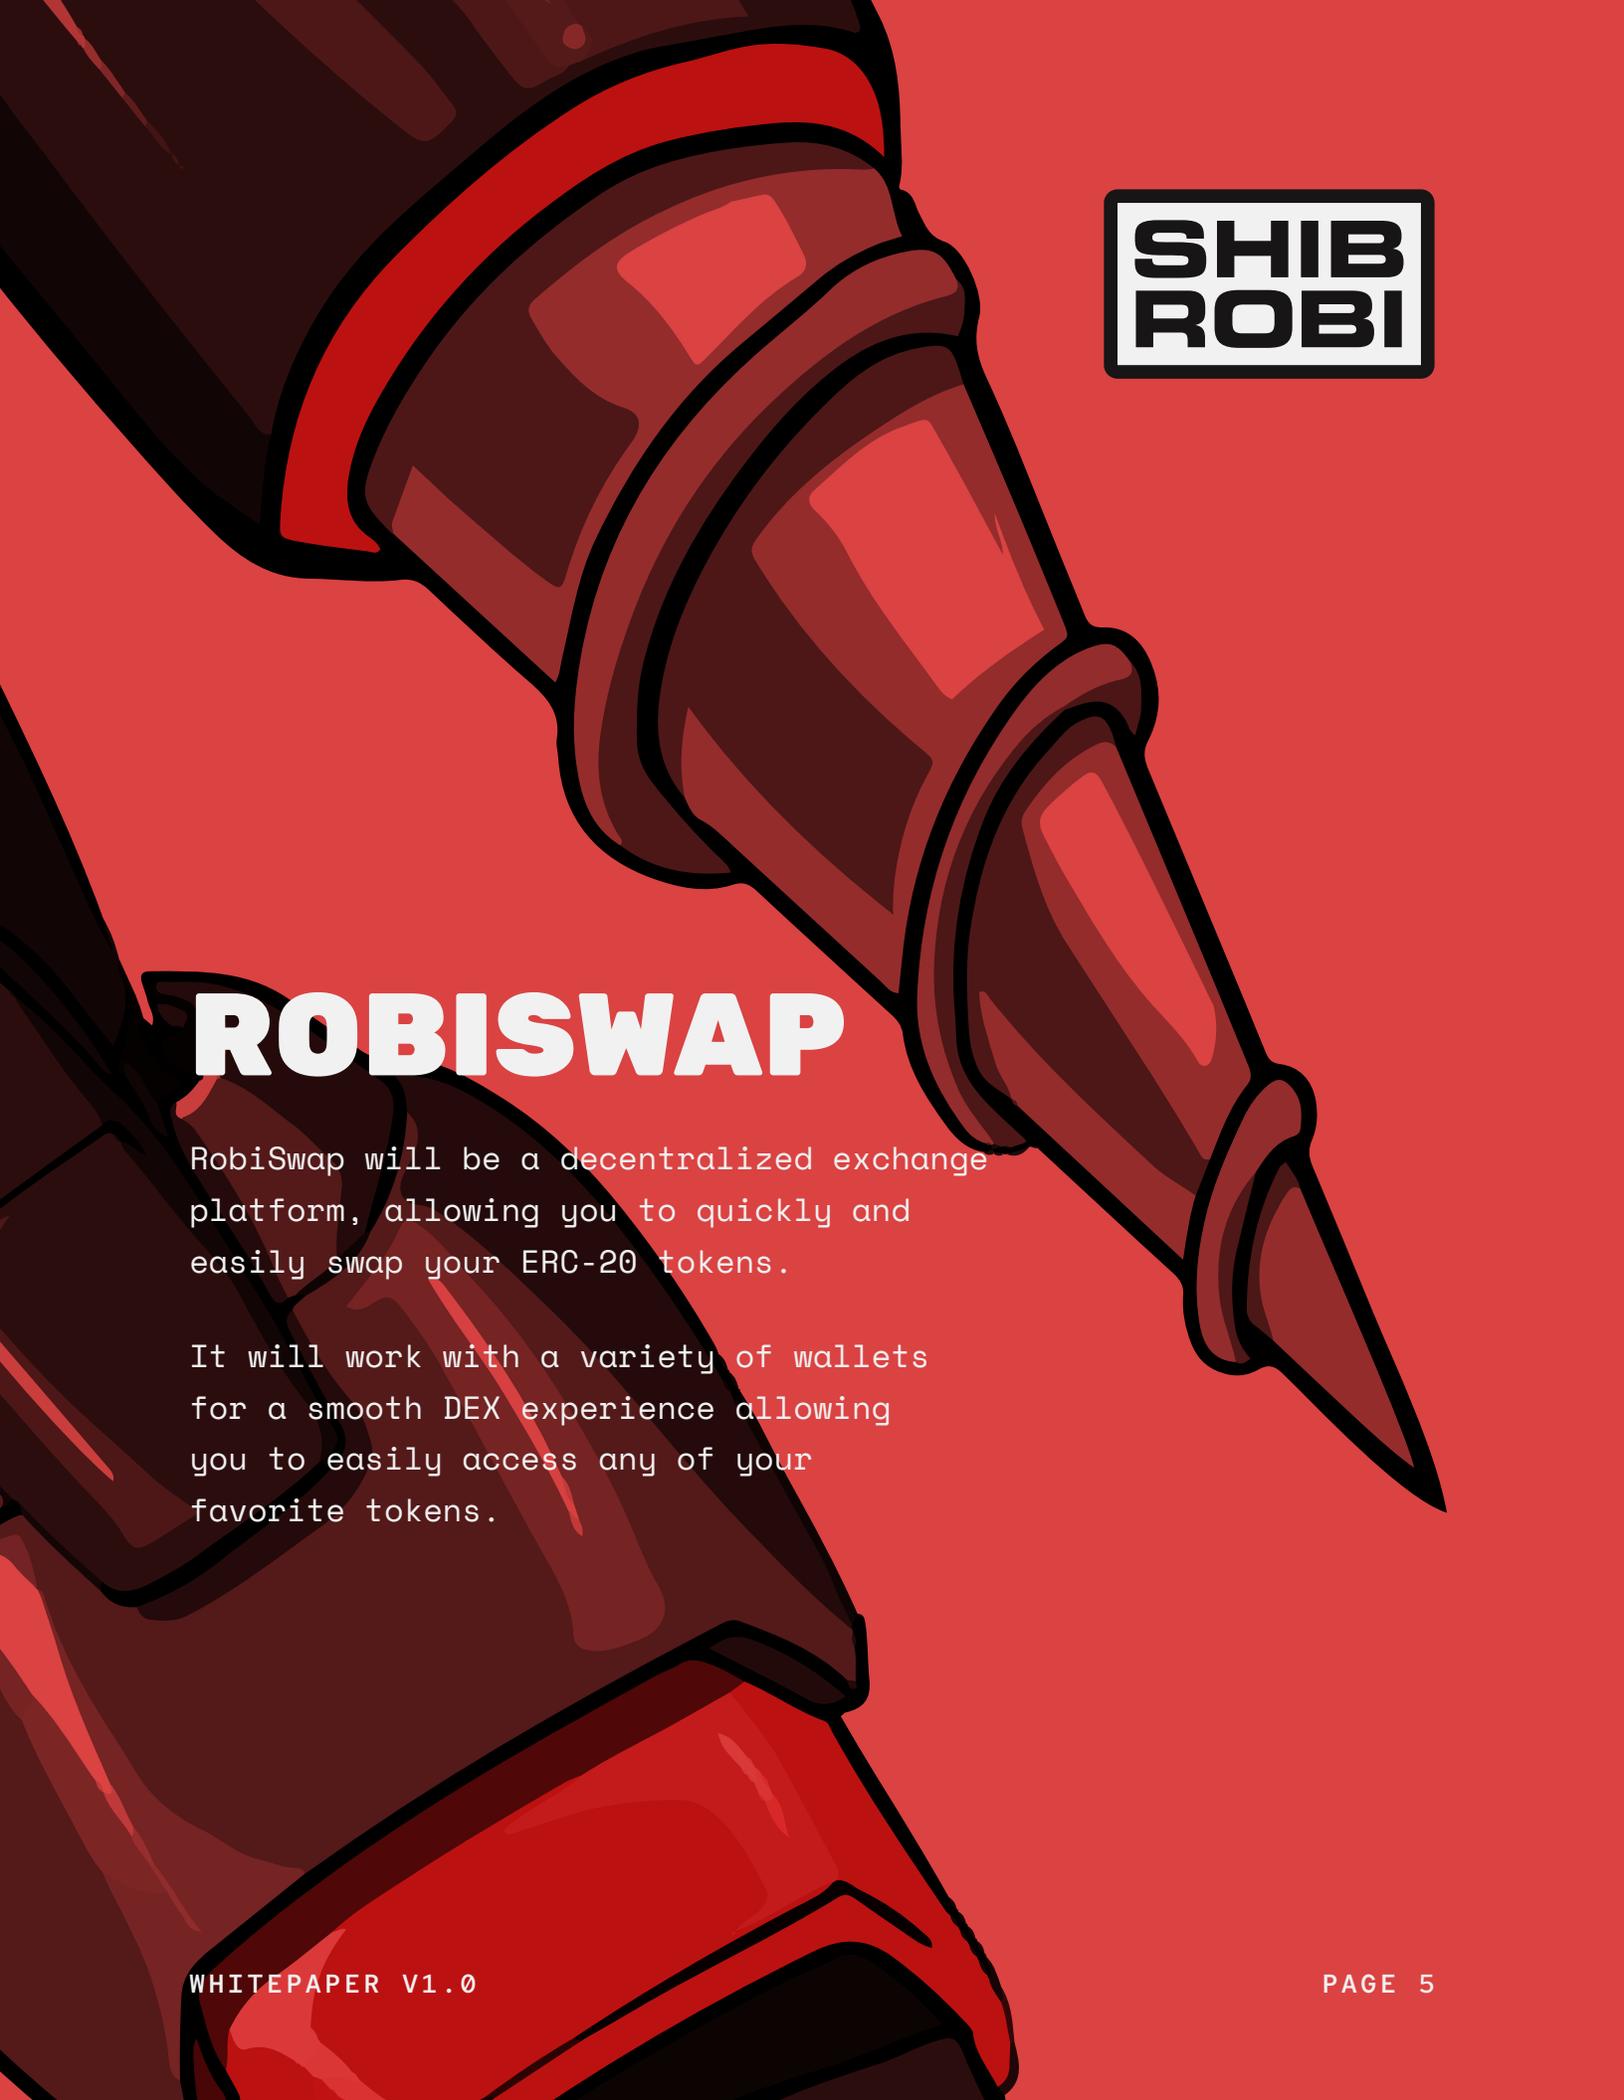

Inspire and prepare under-served students to pursue STEM learning and careers through mentored robotics competitions and hands-on projects.

GOAL

To reach, inspire, and enable students who otherwise might not consider or believe they could achieve STEM careers and engaging them in hands-on experiential learning through interesting and challenging STEM projects during their K-12 years, as well as supporting their pursuit of college or university degrees in related majors.

DONATION PLAN

We will donate \$25,000 to XBotRobotics during Phase 3 and follow up with more donations as we continue to grow our community.

ROBISWAP

RobiSwap will be a decentralized exchange platform, allowing you to quickly and easily swap your ERC-20 tokens.

It will work with a variety of wallets for a smooth DEX experience allowing you to easily access any of your favorite tokens.

The logo consists of the words "SHIB" and "ROBI" stacked vertically in a bold, black, sans-serif font. The text is contained within a white rectangular box with a thick black border. The background of the entire page is a solid red color, and a large, stylized illustration of a dark red, multi-barreled gun with a red ring around its middle section is positioned diagonally across the page.

P2E GAME

We call upon the hardened mercenaries in our ranks to help us catch and destroy the evil forces trying to bring us down!

Our game will be a MegaMan-inspired game with **SHIBROBI** as the main character.

You will be able to use the gatling gun, drill, rockets, and jet pack to obliterate enemies and progress through the game.

Playing our game will earn you **SHIBROBI** tokens and other unique prizes!

OCULUS VR GAME

Imagine being able to crawl into your very own Shiborg suit.

Stomping around in your shiny, new armor.

Admiring your weapons, curious as to how much destruction they can bring.

Wonder no more! We plan to release a first-person shooter with all of **SHIBROBI**'s weapons available to use—jetpack included!

Strap on your Oculus and get ready, The Shiborg is coming to you in VR!

TEAM

The **SHIBROBI** development team believes in transparency and results. This team has been dedicated day and night, for hours on end, to changing the DeFi space for the better. Our community is so supportive and passionate about this project, which pushes us to work even harder for you!

SHIBROBI

THANK YOU!

SHIBROBI will be the catalyst into an unbelievable journey in the DeFi world! We want to make this journey as fun and exciting as possible. Holders can expect numerous giveaways, contests, full on transparency, and lastly, RESULTS!

While we are still in our early stages, I wanted to give a heartfelt thank you and welcome to everyone following along this journey. Your support and kind words have made my time in this space unforgettable. I cannot thank you enough for supporting and believing in this project. My team and I are beyond excited for the future with this community by our side.

We will be here every step of the way, being as transparent and open as possible.

Are you ready to take a journey through DeFi with the world's most powerful Shiborg?
