

MATHS

Our Maths lessons provide daily teaching and learning experiences within maths which are practical, purposeful and will ultimately lead to progression. This term the children in year 4 will learning about decimals and how they connect to fractions. We will also be covering a wide range of important topics that children need for real life, like 'time' 'money' and 'measurement'. Year 4 have progressed really well in maths this year and this term will be no different.

PE

Year 4 will continue their weekly swimming lessons at Armley Baths. All the children are continuing to improve and many are now able to swim the whole length of the pool. Our indoor PE will start with fitness and health and then it will be followed by gymnastics. Fitness is incredibly important and so we will be concentrating on improving their exercise skills. Gymnastics will help with movement and confidence.

SCIENCE ENQUIRY

The children will be using the sunny summer term to explore animals other living things and their habitats. We hope that the weather will allow us to spend time outside in our garden areas as well as help out with the brand new bug hotel. They will learn about various different animal species and how they survive.

Art and Design

Children will be taking their scientific learning from last term in electrics and using that to design and make a Tudor style lantern. In Art we will be doing observational drawing in which they will be able to practice sketching / pastels & chalks as well as develop their shadowing skills.

CCUA C of E Primary School

TOPIC GRID

2021/22

Summer

Year 4

Mr Binks and Mrs Briggs

REMINDERS

Yr 4 PE - Monday is swimming and Wednesday is in school PE

Please can you ensure children have an outdoor PE kit and swimming kit in school with them on the correct days.

Reading books - Try to ensure reading books are in school every day.

History and Geography

The next whole term we will be concentrating on two topics which will cover both history and geography. First we will be looking at the Tudor's and the history surrounding their dynasty. Then we will be moving onto 'Explorers' were children will find out what it was *really* like to be an explorer before all the modern technology that helps us today.

ENGLISH

We will be reading and writing a variety of both fiction and non-fiction texts. These will link where possible to our topic based work on Tudors and explorers. We will be writing some fun stories surrounding adventure and exploring as well as writing diaries and biographies of people from ancient history.

COMPUTING

In computing the children will be looking at lots of aspects of animation including logo design and stop motion. We will also be teaching them how to 'search' the internet safely and effectively. This is such a vital topic at helping children understand how computer programs are made and how they work. It is helping them prepare them for the jobs of the future.

PARENT NOTICE

Please try to support your child's learning in the following ways:

consolidate their understanding of number and times tables.

- support your child at home with their spellings
- ensure your child reads every night
- Thank you for your continued support.
