OPTIONAL FINISHES

A wide range of woodgrain and coloured-foil options are available for either or both faces or even differing frames and sashes.

Monkey-tail 'dummy' peg-and-stay

flushSASH

Fusion-welded or optional mechanically-jointed frame

Ultra-low profile glazing gasket means the gasket is almost invisible

Heavy-duty friction stays for top-hung windows.
Heavy-duty easy-clean/ fire escape friction stays for side-hung windows

High security, multi-point locking system comprising of roller-cam bolts, twin shoot-bolts and optional hinge bolts

Contemporary or Traditional handles available in a choice of finishes

A choice of either black, white or grey, warm edge spacer bar

High-impact modified PVCu to prevent cracking with age or extreme cold

Internally glazed for enhanced security

Double-glazed unit uses clear SGG Planitherm TOTAL+ energy glass, to achieve maximum amounts of incoming light, and an 'A' Energy Rating

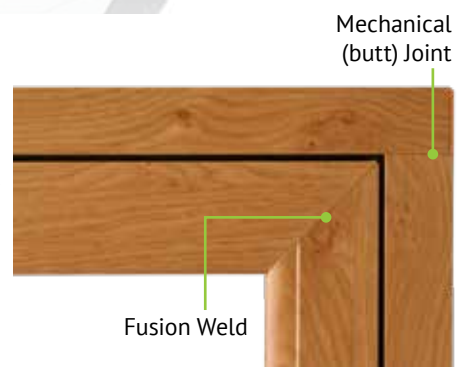

PLEASE NOTE: Due to the design of the flushSASH system, the sashes do not have a night-vent position

Optional **deep bottom rail** recreates the wider timber used across the bottom of the sash on older windows

Standard fusion-welded sash works seamlessly with the optional mechanically-jointed outer frame

Optional Mechanical (butt) Joint

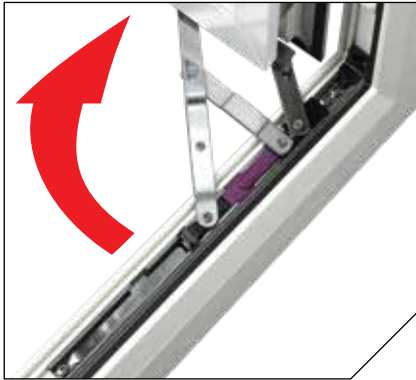

Mechanical (butt) Joint

Fusion Weld

STANDARD EASY-CLEAN HINGES

The Easy-Clean hinges enable the sash to be opened at 90 degrees

By pressing down on the purple button, the sash is released and can slide along its hinge runner

This now gives access to the front of the sash from indoors for cleaning.

GLASS FINISH

Polished finish reduces cleaning and maintenance and retains a cleaner look for longer helping resist airborne pollutants and moulds

HIGH TECHNOLOGY

High-tech 6-chamber frame and 4-chamber sash design intelligently uses structural PVCu for high strength

CHOICE OF FINISHES

A selection of standard colours or an extensive range of pre-finished foils are available

100% LEAD FREE PVCU

Completely free of poisonous lead stabilisers

ENERGY EFFICIENCY

PlatinumNRG is one of the best performing products on the market, taking full advantage of the increased thermal efficiency offered by its 6-chamber frame and 4-chamber sash.
