# TUFFLabels

## America's Most Durable Labels

Unrelenting label reliability for virtually any surface in extreme conditions for industries including Automotive, Electronics, Commercial, Industrial, Marine, Medical, and Retail.

**TUFFLabels** are the ultimate solution for heavy construction, marine applications, sun-baked environments, and more! You can truly "stick it and forget about it."

### Really **TUFF!**

- **TUFFLabels** are outdoor durable, waterproof, UV resistant, weatherproof, chemical resistant
- Effective in subzero to extreme heat environments
- Adhere to metal, glass, plastic, fiberglass, painted and many other surfaces

### Custom Solutions for Complex Applications

- **TUFFLabels** are a cost-effective way to label, identify, and protect equipment based on your demanding requirements
- We have over 25 years experience helping clients efficiently design and fabricate durable labels

### Quick Turnaround

- Our streamlined, digital process greatly reduces manufacturing and delivery times
- All phases of the **TUFFLabels** process are kept in-house to ensure speedy results and meet tight production deadlines

## TUFFLabels Examples

Equipment

Photo Quality

Product Decals

"Pure Restore uses **TUFFLabels** to brand all company owned equipment. Our gear sees a lot of wear and tear on the field, and it's often exposed to environments full of water, moisture, and high temperatures.

"If these labels can survive in the restoration industry, they will be suitable for any other category or niche.

"We are impressed at the visual quality of **TUFFLabels** as well—our logo and colors look great!"

*Max Pena  
Communications Manager
