Taking Ezi-action® Technology to the World since 1991

In our early days we started with one person's vision to help manufacturers and resellers of liquid products grow their business through offering quality dispensing products.

A pair of kiwi inventors got together and created the Ezi-action® Drum Pump; an instant success with farmers across New Zealand. It didn't take long for NZ Pump Co. to become a world leading company.

Our head office is in Hamilton, New Zealand. We have customers spanning 111 countries and myriad industries, from agriculture to breweries, who all rely on our pumps for safely moving a variety of fluids.

We are committed to delivering high quality pumps to customers. While focusing on innovation and growth, the purpose remains what it's always been: "to keep putting our customers first and offer the very best quality hand pumps".

Our values:
