## ODYSSEY

A collection of lighting inspired by celestial bodies, space, dreams, things far and away. 'Odyssey' is a continuous exploration into the intrigues of other worlds.

## ARRONAX

Navigating between sky and sea, these table lamps allude to the submarine of Jules Verne's '20,000 Leagues Under the Sea', journeys beckoning, sea and sky. Intended as decorative fixtures, these pieces are theatrical and moody, appropriate for modern or nostalgic interiors.
