CRAFTING A HIGH-PERFORMANCE HYBRID BAY BOAT

UNPARALLELED ON-WATER EXPERIENCE.

Clark Sound Boats are meticulously crafted using the finest materials in the industry. Our unique build methodology and innovative design ensure unmatched performance and efficiency, setting us apart from the competition. Experience the distinction—where quality you can see meets performance you can feel.

EXCELLENCE ON THE WATER

EXPERIENCE THE HYBRID-BAY BOAT DESIGN

The Clark Sound 24 epitomizes luxury and excellence with its top-tier features. Every detail, from its bow to stern, offers generous space tailored for dedicated anglers and their water-loving companions. Highlighted by the sought-after cooler cushion seats with backrest, it also boasts a standard leaning post with rod holders and SeaStar hydraulic steering with tilt helm. For enhanced fishing adventures, consider the optional pressurized livewells. Wherever your fishing journey takes you, the Clark Sound 24 ensures an unparalleled on-water experience.

THE HYBRID EXPERIENCE

UNPARALLELED ON-WATER EXPERIENCE.

Recently, the hybrid-bay boat has emerged as a favorite among inshore boating enthusiasts. Experienced boaters recognize that while versatility remains crucial, there's a desire to specialize in coastal fishing without compromising on family-friendly features. The hybrid-bay design perfectly bridges this gap, offering a balanced solution for both pursuits.

FLEXIBILITY IN DESIGN

EXPERIENCE THE DISTINCTION

Clark Sound Boats are meticulously crafted using the finest materials in the industry. Our unique build methodology and innovative design ensure unmatched performance and efficiency, setting us apart from the competition. Experience the distinction—where quality you can see meets performance you can feel.

THE BEST FISHING EXPERIENCE

EVERY DETAIL IS METICULOUSLY CONSIDERED

From the perspective of an angler, every detail is meticulously considered in the Clark Sound 24. Tailored to meet the demands of coastal fishing, it boasts elevated casting decks at both ends and a secure cockpit to ensure your family's safety on the move. Complementing its design are features like a trolling motor, powered stake anchors, ample live wells, abundant rod holders, and dedicated tackle storage, equipping you with everything essential for a successful fishing expedition.

MORE RIDE COMFORT

READY FOR OFFSHORE ADVENTURES AND COAST LINE CRUISES

Recently, the hybrid-bay boat has emerged as a favorite among inshore boating enthusiasts. Experienced boaters recognize that while versatility remains crucial, there's a desire to specialize in coastal fishing without compromising on family-friendly features. The hybrid-bay design perfectly bridges this gap, offering a balanced solution for both pursuits.

BENEFITS OF VACUUM INFUSION

BENEFITS OF VACUUM ASSISTED RESIN INFUSION

“The Vacuum Infusion Process, or VIP for short is a composite process that offers the ability to create superior products out of fiber-reinforced plastics which are light in weight yet extremely strong.”

- Better fiber to Resin ratio
- Stronger laminate
- Low void content
- Reduce operator exposure to harmful emissions
- Reduce resin usage due to pre-compacted fabric
- Faster Ply lay-up

ENHANCED STRENGTH AND DURABILITY:

READY FOR OFFSHORE ADVENTURES AND COAST
LINE CRUISES

Vacuum infusion ensures a consistent resin-to-fiber ratio, resulting in a stronger and more durable hull. This can provide boaters with increased confidence in their vessel's ability to withstand challenging marine conditions.

IMPROVED PERFORMANCE:

CONSISTENCY AND STRENGTH

The reduced weight of vacuum-infused hulls can lead to improved speed, maneuverability, and fuel efficiency, enhancing the overall boating experience.

LEARN MORE

LONG-TERM VALUE:

PREMIUM FEATURES

Boats constructed using vacuum infusion technology may offer better long-term value due to their superior durability, reduced maintenance needs, and potential for improved resale value.

INNOVATIVE DESIGN POSSIBILITIES:

LIMITLESS POSSIBILITIES

The vacuum infusion process allows for the creation of complex and innovative hull designs, providing boaters with more options to choose from when selecting a vessel that meets their specific needs and preferences.

TO BUILD A FUN, QUALITY, PERFORMANCE MACHINE

Our core purpose and inspiration behind the inaugural Clark Sound was clear: crafting a high-performance vessel that seamlessly blends fun, quality, and performance. Designed to cater to both passionate anglers and leisure boaters alike, the Clark Sound stands as a testament to our commitment to excellence on the water.

PREMIUM UPHOLSTERY OPTIONS

DURABILITY, QUALITY AND PERFORMANCE

Clark Sound Boats utilizes high-quality marine-grade upholstery to guarantee that boat interiors stay comfortable, stylish, and resilient, even in demanding marine conditions.

In essence, our investment in premium marine upholstery enhances the overall comfort, aesthetics, and longevity of a boat's interior. This makes it a prudent choice for boat owners who prioritize quality and performance.

GREY UPHOLSTERY OPTION

WHITE UPHOLSTERY OPTION

TAN UPHOLSTERY OPTION

Dry weight is an approximation and encompasses the boat along with factory options, two batteries, excluding motor(s), water, fuel, or owner's gear.

Maximum weight is an approximation, including the boat with factory options, full fresh water, holding and fuel tanks, two batteries, but excluding motor(s) or owner's gear.

Bridge clearance is based on the factory-installed hard top or T-top and does not account for optional outriggers.

Fuel capacity may vary due to US EPA Evaporative Standard requirements.

Note: As Clark Sound Boats is committed to continuous innovation and improvements, specifications are subject to change without notice. For the most up-to-date list of available standards and options, please visit our website.
