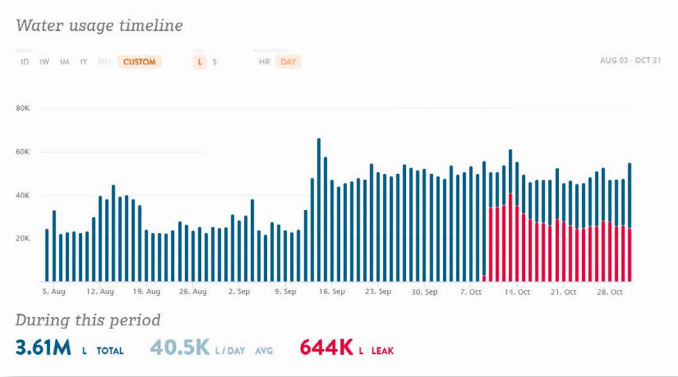
REIT SAVES $43,000/YR AT MULTI-FAMILY RESIDENTIAL BUILDING WITH AlertAQ™

Skyline Apartment REIT is an award-winning Real Estate Investment Trust that manages over 300 multi-family residential buildings from coast to coast. Alert Labs water intelligence solutions are being deployed at all Skyline apartment buildings.

In addition to detecting leaks at 23% of properties, the AlertAQ water intelligence platform has saved an estimated $43,000 a year in wasted water costs at a 67-unit multi-family residential building.

> *"AlertAQ has identified significant cost saving opportunities at our multi-family residential buildings.*
>
> - Roy Jason Ashdown, Skyline CEO and Founder



AlertAQ uses advanced leak detection technology to identify savings opportunities.

The red area indicates the size and duration of the leak which would cost $43,000 a year if left untreated.
