

# ALGON

SPECIALITY POOL PRODUCTS

A trusted name in highly effective  
pool solutions since 1988

## Algatac

Available in 1 litre and 5 litres

GREATLY REDUCES YOUR CHLORINE REQUIREMENTS

---

ALGATAC is our top-selling product and has been very popular since the 1980's. It is a strong, general, all-purpose algae controller suited to treating green, black and mustard algae. It is also useful for treating general algae problems in larger pools.

ALGATAC contains 40.0 gm/litre complex blend of copper salts Plus 100 gm/litre Benzyl Ammonium Chloride.

For best results:

- Check PH of the water and adjust to be between 7.2 & 7.6.
- Maintain a good chlorine level.
- Brush with a stiff brush to get rid of stubborn black spot.
- Walk around your pool pouring ALGATAC into the water with your filter running.
