

Safety Data Sheet – Clarifier

Revision date; August 2020

Section 1 – Product Identifier and chemical identity

Product names:	Clarifier
Product use:	Treatment of cloudiness in swimming pool water
Supplier details:	Manufactured and Distributed within NZ by; ALGON NZ, 163 Morrin Rd, St Johns, Auckland, 1072. Ph +64 9 529 0523 Distributed within Australia by; Algon Australia Pty Ltd, Reg'd Office Level 11, 80 Mount St, Nth Sydney, NSW 2060" Ph: +61 2 944 97997, Fax: +61 2 944 95664
Emergency contact details (24 hrs)	NZ National Poisons Centre – 0800 764 766 NSW Poisons Information Centre – 131 126

Section 2 – Hazard Identification

Hazardous Classification:	Not classified hazardous according to the Hazardous Substances and New Organisms Act 1996
GHS Signal Word:	None
Hazard Statements:	None
Precautionary Statements:	None

Section 3 – Composition

Ingredients	CAS #	Concentration
Water and other non-hazardous ingredients	N/A	100%

Section 4 – First Aid

If you suspect that you have been poisoned or irritated by this product, you should call the Poisons Information Centre on 0800 764 766 (in NZ). Make sure you have this SDS available when you call. First aid measures vary according to routes of exposure.

Ingestion:	If product is swallowed, rinse out mouth with water. Do not induce vomiting, but drink plenty of water. Do not give anything by mouth to an unconscious person.
Eye contact:	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
Skin contact:	Remove contaminated clothing, and wash affected areas with soap and water for several minutes. Irritation is unlikely but seek medical attention if irritation continues.
Inhalation:	Unlikely route of exposure.

Section 5 – Fire Fighting

Suitable Extinguishing Media:	Use media to suit local environment such as dry agents, water, foam, water fog.
Unsuitable Extinguishing Media:	None known
Hazards from combustion:	There is no risk of explosion from this product. May form toxic combustion products during fire
Precautions for fire fighters:	Fire fighters should wear approved self-contained breathing apparatus and protective fire-fighting clothing. Keep away from low positions and stay upwind.

Section 6 – Accidental Release

Protective Equipment:	Wear protective clothing, including impervious shoes, PVC gloves and goggles (see Section 8). Dispose of the absorbed spill in accordance with local, State or Federal regulations at an approved waste disposal facility or land fill. Avoid generating dusts, vacuum up where possible.	
Environmental precautions:	Try to contain spill. Prevent spillage from entering drains, sewers and waterways	
Containment and Cleaning Up:	Large spills	Treat area with absorbent material such as sand, earth or vermiculite. Notify local council or emergency services if spillage enters drains.
	Small spills	Use absorbent materials to soak up spill, and dispose of in sealed, labelled containers.

Section 7 – Handling and Storage

Precautions for Safe Handling:	Ensure personal protective gear (Section 8) is worn when handling, keep exposure to a minimum. Wash hands before eating, drinking or smoking. Remove contaminated clothing before entering eating areas. Keep away from any incompatible materials mentioned in Section 10. Keep handling to a minimum.
Conditions for Safe Storage:	Store in a cool dry place away from direct sunlight or heat. Keep away from any incompatible materials mentioned in Section 10. Keep in original containers with lids firmly sealed and check for spills. Avoid contact with strong acids.

Section 8 – Exposure Controls

Exposure Standards	WES-TWA (mg/m3)	-	no exposure standard allocated.
Engineering Controls:	No special requirements are necessary.		
Personal Protective Equipment (PPE):	Wear gloves, safety glasses, protective boots and overalls.		
Eye and Face Protection:	Wear safety glasses with side shields.		
Skin Protection:	Wear protective clothing and gloves to avoid unnecessary contact.		
Respiratory Protection:	It is usually safe to use this product without a respirator.		

Section 9 – Physical and Chemical Properties

Appearance:	liquid.	Flammability:	Not flammable.
Odour:	None	Vapour pressure:	No data available.
Odour Threshold:	No data available.	Vapour density:	No data available.
pH:	No data available.	Relative Density:	No data available.
Freezing point:	0°C approx.	Solubility:	Completely soluble in water.
Boiling Point:	100°C approx. (at 100 kPa).	Partition coefficient:	No data available (n-octanol/water).
Flashpoint:	No data available.	Auto-ignition Temperature:	n/a - doesn't burn.
Evaporation Rate:	Similar to that of water.	Decomposition Temperature:	No data available.
Viscosity:	No data available.		

Section 10 – Stability / Reactivity

Reactivity:	Stable under normal storage conditions, with decomposition or reaction unlikely.
Chemical Stability:	Product is stable at normal ambient temperatures and pressures.
Possibility of Hazardous reactions:	Polymerisation is unlikely to occur.
Conditions to avoid:	Store in a cool, dry, well-ventilated place in the original container, avoiding excessive heat, direct sunlight, freezing and moisture.
Incompatible materials:	Avoid contact with strong acids,
Hazardous decomposition products:	Only small quantities of decomposition products are expected at fire temperatures.

Section 11 – Toxicological Information

Acute Toxicity:	Not expected to be a hazard
Oral	Not expected to be a hazard.
Dermal	Not expected to be a hazard.
Inhalation	Not expected to be a hazard.
Skin Corrosion / Irritation:	Not expected to be a hazard.
Serious Eye Damage / Irritation:	Not expected to be a hazard.
Respiratory or Skin Sensation:	Not expected to be a hazard.
Germ Cell Mutagenicity:	Not expected to be a hazard.
Carcinogenicity:	No information available.
Reproductive Toxicity:	Not expected to be a hazard.
Specific Target Organ Toxicity	Not expected to be a hazard.
Aspiration Hazard:	No information available.

Section 12 – Ecological Information

Ecotoxicity:	Not considered harmful to the environment
Persistence and degradability:	No information available.
Bioaccumulative potential:	No information available.
Mobility in Soil:	No information available.

Section 13 – Disposal Considerations

Disposal methods:	The product should be disposed of in accordance with state or local government waste management regulations. The containers themselves should be recycled wherever possible.
--------------------------	--

Section 14 – Transport Information

This product is not considered dangerous for transport according to the ADR, NZS5433, IMDG, or IATA.

Section 15 – Regulatory Information

Location compliance certification:	Not required
Tracking:	Not required
Certified Handler:	Not required
Secondary containment:	Not required
Signage:	Not required

Section 16 – Other Information

SDS Prepared By: Grayson Wagner Co Ltd
