

Slime Strike

Available in 1 litre , 5 litres and 20 litres

Moss & Mould Remover

Removes All Moss, Algae And Lichen From Concrete Paths, Patios, Outside Furniture, Timber Decking, Bricks, Awnings And Any Other Hard Outdoor Surfaces.

Active Constituents Benzalkonium Chloride, Moss and Mould inhibitor.

Directions for Use

Mix 1 part of slime strike with 9 parts of water. If growth is heavy strengthen slightly, For best results wet area to be sprayed later in the day.

Allow to partly dry, Spray using a garden sprayer, watering can or brush on. Then let nature do the rest.

Slime Strike is mild – it may take a week or two to see results. It won't happen overnight but it will happen.

Note; When cleaning a roof that is used to collect rain water disconnect the supply line/pipe to the tank before applying Slime Strike. Wait until there has been at least 10mm of rainfall before reconnecting the tank water supply.

Maintenance

To maintain surfaces in clean condition apply Slime Strike at least once a year or if regrowth occurs.
