Medicare-Medicaid Data Sharing Program Data Request Process Timeline

SDRC | State Data Resource Center

STEP 2

The Medicaid agency drafts data request package materials and submits to SDRC.

STEP 4

When ready, SDRC shares the data request package to CMS on the Medicaid agency's behalf.

STEP 6

SDRC works with CMS and the appropriate data distributor to ship data to the Medicaid agency.

STEP 1

As a part of the Medicare-Medicaid Data Sharing program*, a Medicaid agency reaches out to SDRC and/or CMS about interest in Medicare data for dually eligible beneficiaries.

STEP 3

SDRC reviews data request package and provides feedback for Medicaid agency to incorporate.

STEP 5

CMS reviews and approves data request package.

STEP 7

The Medicaid agency receives approved Medicare data.

SDRC provides ongoing support for requesting, analyzing, and understanding the data.

*The Medicare-Medicaid Data Sharing program established by CMS-MMCO is a free-of-charge process for state and territory Medicaid agencies to request timely access to certain Medicare data to coordinate care of dually eligible beneficiaries and help ensure the integrity of the states' and territories Medicaid program. Medicaid agencies can reach out via email to SDRC@acumenllc.com or visit https://www.statedataresourcecenter.com/ for more information.
