

YAGUTO INU

\$YINU TOKEN OFFICIAL WHITEPAPER
03.12.23

WHO IS YAGUTO

The decentralized spirit of the original Shiba Inu token has inspired the creation of YAGUTO Inu, a new cryptocurrency for the gaming and streaming communities. YAGUTO Inu offers a unique combination of utility and innovation for Twitch and Steam users, providing a seamless and secure way to support content creators and make purchases and trades on the platforms.

PROBLEM EXPOSURE

The gaming and streaming communities have seen tremendous growth in recent years, but traditional payment methods have struggled to keep up with the changing needs and demands of users.

Problem One

High fees, slow transactions, and limited options for supporting their favorite content creators

Problem Two

Lack of innovation in the payment and rewards systems for the gaming and streaming communities, which limits the potential for growth and adoption.

OUR VISION & MISSION

Our Creative Vision at YINU

Our vision for YAGUTO Inu is to create a cryptocurrency that is accessible, user-friendly, and provides real value to the gaming and streaming communities. By combining the decentralized spirit of Shiba Inu with the utility of Twitch and Steam, we aim to create a new standard for digital transactions within these communities.

Our Mission

Our mission is to provide a seamless and secure way for Twitch and Steam users to support their favorite content creators and participate in the gaming and streaming communities. By offering low fees, fast transactions, and a built-in rewards program, we aim to empower users and drive the growth and adoption of YAGUTO Inu.

OUR SOLUTIONS

The YAGUTO Inu project aims to address these challenges by providing a new and innovative solution for the gaming and streaming communities. We aim to provide a seamless and secure way for users to support their favorite content creators and participate in the gaming and streaming communities.

Yagunomics

YAGUTO Inu Tokenomics

The tokenomics of YAGUTO Inu is designed to reward users who support and engage with the Twitch and Steam communities. The token features a unique combination of incentives for streamers, gamers, and other platform participants. YAGUTO Inu is designed to drive the growth and adoption of the token, while also providing real value to users and platform participants.

Staking Pool

Liquidity Staking

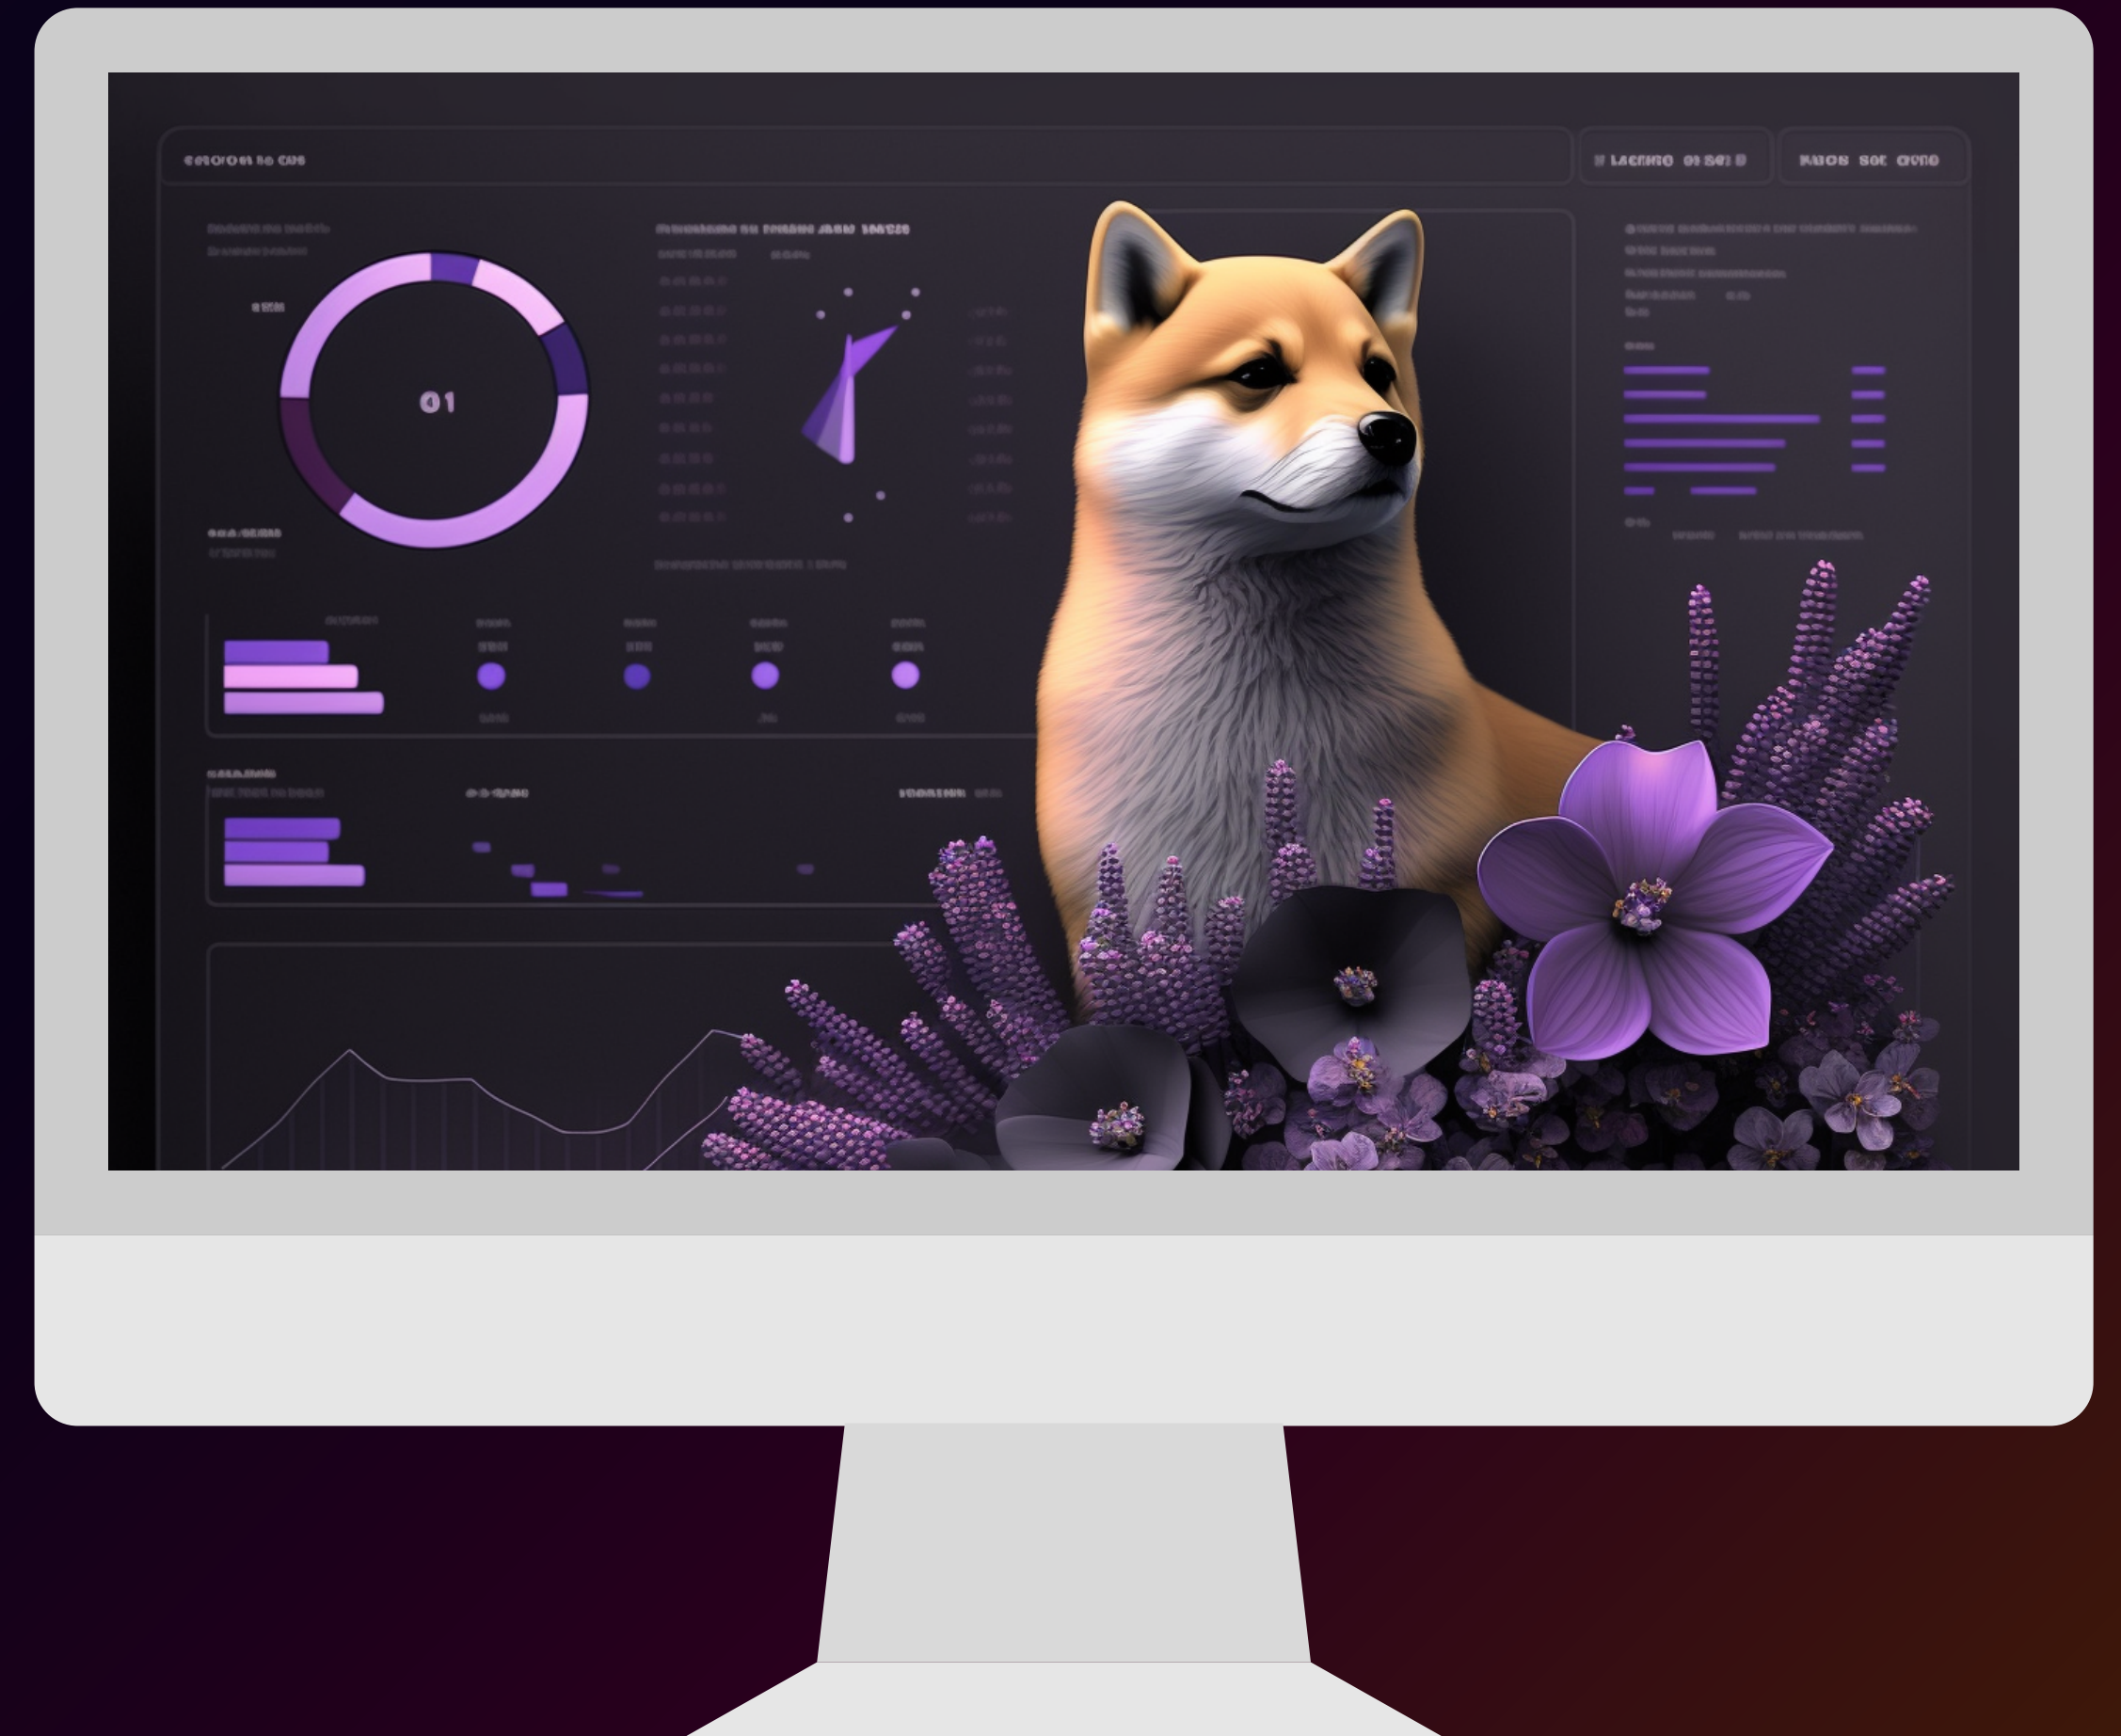

75%

By providing liquidity to decentralized exchanges, users can help to ensure the stability of the YAGUTO Inu market, and earn rewards for their participation. This provides users with a way to passively earn rewards for their investment in YAGUTO Inu, and helps to drive the growth and adoption of the token.

Node Staking

150%

By running a node, users can help to secure the network and validate transactions, and earn rewards for their contributions. This provides users with a way to actively support the YAGUTO Inu network, and earn rewards for their investment in the token.
